

Darvin Potter
Anegada, British Virgin Islands

03 February, 2021

The Right Honourable Sir Gary Hickinbottom
Commissioner of Inquiry
Office of the Governor
Government of the Virgin Islands
Road Town, Tortola
British Virgin Islands, VG1110

Dear Sir,

Re: Inquiry of 2021

As touching as this inquiry might be, what do you see? What do you understand is taking place? Let me give you my observations. This inquiry is an exercise in the pot calling the kettle bottom black while both is cooking on open wood fires. Another Bible analogy is like this: take the plank out your own eye, then you will be able to see to take the speck of dirt out of someone else's eye. You are a hypocrite.

Glass house

There is a proverb well known here in the West Indies, the one who lives in a glass house, should not throw stones at other people's glass houses.

To the Chairman of this inquiry, you are just doing the before mentioned, and let me bring you up to speed on Virgin Islands manners. Respect breeds respect.

You are sent here to inquire into the corruption of and among our leaders. Sir Gary Hickinbottom we here in the Virgin Islands had the best teacher, Great Britain.

Let me update you. My schooling began when I was age five. The Methodist Church was the one who paid for the first five years of my schooling. Where was Great Britain when I stood in the sun squinting, and singing Britannica rule the waves? The other two years of my schooling was in a building, built by the women of the Anegada community from the proceeds of selling sugar cakes, coconut tarts and such things.

The present wooden building people such as you allow to become what is now, is a sleeping place to animals.

We learned neglect and corruption from the best, Great Britain. There is the possibility of the reality, that your employers who sent you on this mission to search and destroy that the answer and conclusion is right now in the Foreign and Commonwealth Office for the Caribbean Territories.

We know why you are here so let me spell it out for you. It is not to find out if corruption and mismanagement is taking place. It is to take a scrumptious living and future for the white families that Britain wants to send here to give them a better future at our expense. We know the history of Great Britain, of her leaving Europe and going to Africa, and raping it of its gold, silver, diamond, and minerals. All those black people who opposed her were killed. Britain taught P.W. Botha of South Africa to subjugate the blacks by killing them, and jailing the black leaders like Nelson Mandela, for saying that by any means necessary he will take back freedom. For this saying he was jailed for 26 years.

The white leaders to Great Britain, after having to free the black slaves sued Britain for the loss of property income and was paid reparations in 2015. Mr. Chairman, is this part of your mission? My vigorous advice to you is get this reparation included in your inquiry. Do not black people not need to be paid for white folks abusing them as property? Remember Great Britain chickens will come home to roost in 2021.

Mr Chairman, are you on God's radar? Be very careful what you do, for God does not bear the sword in vain, and what flesh and blood creature can withstand him?

Martin Stavely, Commissioner. Cruikshank Commissioner, these men were predators and heartless tyrants.

Commissioner Cruikshank was Government, Magistrate, and Judge. "Prosecutor and judge". These were men handpicked by Britain for these jobs.

Martin Stavely with the same rank as above leased the entire island of Anegada with the exception of 329 acres which is known as The Village, about half of which is submerged throughout the entire hurricane season, roughly six months.

This Martin Stavelly leased to a man from England for 199 years contrary to the law which only allowed 99 years. Mr. Chairman tell your boss we marched then, and we will march now for our freedom.

Mr. Chairman, we the people of God will loose a death sentence over you to consume you and your house away suddenly, this is your call.

An ode to Britain later narrative

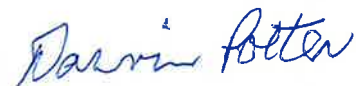

In my younger years, I taught a Sunday school class and in one of the songs we sang went like this "sow truth if thou the true would'st slay who sow the false shall reap the vain. Sound and erect thy judgement keep from hollow words and deed refrain."

Life is a schoolroom; one can choose what they want to learn depending on their parents. Most choose the tiring trade. It is more allowing with high dividends at both ends, what you sow you will reap.

All of Britain's territories, for the tenure of her rule, prepared them for not more than to be a subservient people. After demanding independence by the insistence of the United Nations were but loose on the sea of nationhood without a paddle, shameful. Please tell your bosses the people of the BVI know that the fix is in. We have watchers watching for us. You do not see them, but they are seeing you.

Wish it were possible to have an audience with you.

Sincerely,

Darvin Potter
