

What's on the MENU?

Here are the facts on why you should get started with flash drives:

Popularity

In recent years, the increase in demand for flash drives, and their versatility has skyrocketed; they've become the world's "favorite dish"! With over 275,000,000 sold last year and \$2.78 billion, the market for these products has expanded from kids at school through adults in the work place. The top promo distributors have picked up on these trends, and are selling their clients customized options that are in demand.

The general consumer out there lives life "On The Go". They crave products that allow them to have a portable life. Flash Drives provide accessibility to their documents, pics etc. all from a drive that fits on their key chain.

Versatility

Links

Create your own upload! You can link to their company website, social media sites like YouTube, Facebook, Twitter, or LinkedIn; to E-catalogs, or online newsletters. Whatever you client has, we can link to it!

Files

Create your own filing system! You can place any digital document from pictures, videos, audio files, to spreadsheets and art files. This allows clients to capitalize on America's infatuation with seeing a video on how the product/service is making their lives easy.
