

24MiniMAXX Mortuary Cot

The NEW Ferno® 24MiniMAXX First Call Cot features a **1000 lb. load capacity** and a narrow profile that allows you to place two cots side by side in larger vehicles, giving you **MAXXimum** Transport Capacity!

0032501 | [24 MiniMAXX Mortuary Cot](#)

Ferno 24H miniMAXX

The Model 24 H miniMAXX has been developed to cover the needs of high back vehicles requiring a load height of 32 inches. The 24H MiniMAXX includes all the great features of the Standard 24 MiniMAXX.

0032504 | [24H MiniMAXX Mortuary Cot](#)

24-MAXX Mortuary Cot

With its unique, independent-leg design and wider surface, the 24-MAXX allows you to **transport bodies weighing up to 1,000 pounds** while reducing the risk of back injuries. The cot allows for easy maneuverability in tight areas and down stairs, and has a powder-coated frame and stylish design. The new 24-MAXX, with a variety of innovative features, offers the dependable performance you've come to expect from Ferno, the industry leader.

MQ2498 | [Ferno 24-MAXX Mortuary Cot](#)

Ferno Mini Cot

The Ferno Mini Cot's compact and lightweight design provides easy small body retrieval. Its One-Man®, roll-in style allows one person to perform retrieval. Special release levers make it possible to load the cot into a vehicle without assuming the full weight of the cot and the deceased.

0403026 | [Mini Cot](#)

0314057 | [Ferno Mini Cot Cover](#)

Model 27-1 First Call Cot

The Model 27-1 First Call Cot blends classic design with innovative features. All four wheels swivel. The folding end section shortens the cot by 15", and the cot's head section is tapered, making tight corners less of an obstruction. These features make this cot very maneuverable in close quarters and narrow doorways and allow easy access to the body. The multi-level undercarriage provides flexibility in retrieval. The load-end wheels can be locked when necessary.

Also available with sidearms.

The Model 27-1 comes with a burgundy, Model 375 one-inch mattress and two Model 430 five-foot-long, two-piece burgundy quick-release restraining straps.

MO2710 | [Model 27-1 First Call Cot](#)

Model 24 Multi-Level Cot, One-Man® Mortuary Cot

The Model 24 Multi-Level, Roll-In Style Cot allows one person to perfect retrieval. Special release levers make it possible to raise and lower the cot without assuming the full weight of the cot and body. The load-end legs on the Model 24 unfold and lock automatically when unloading the cot. In confined areas, the Model 24 acts as a highly maneuverable, two-wheeled stretcher when the undercarriage is folded and locked. It slides down stairs in this position with built-in stair guides. The multi-level feature allows the body to be moved easily from bed to cot. The cot also allows a portable stretcher to lie evenly in place.

The **Model 24-H** includes all the great features of the Model 24 and is specially designed for high-floor vehicles.

Both models are also available with sidearms and two locking wheels.

The Model 24 Multi-Level, Roll-In Cot comes complete with Ferno Model 372 one-inch burgundy mattress and two Model 430 five-foot-long, two-piece, burgundy quick-release restraining straps.

MO2420 | [Model 24-H High-Floor Mortuary Cot](#)

Model 23 Roll-In Style, One-Man® Mortuary Cot

The Model 23 Roll-In Style Cot has an extra long wheel base to provide exceptional stability. Its slide-action leg lock securely locks both sets of legs simultaneously when folded. When its legs are folded and locked, the Model 23 can be used as a two-wheeled stretcher. Stair glides reduce wear on the cot and promote smooth movement down stairs. The cot is also wide enough to accommodate a portable stretcher.

The Model 23 Roll-In Style Cot comes complete with Ferno Model 372 one-inch burgundy mattress and two Model 430 five-foot long, two-piece, burgundy quick release restraint straps. Other accessories are available.

MO2300 | [Model 23 Roll-In Style, One-Man® Mortuary Cot](#)

Model 11-T First Call Stretcher

The Model 11-T Stretcher is sturdy and lightweight and has an innovative track system that allows removal down stairs with ease and more control. It has two front wheels and a narrow track-to-ground clearance for easy maneuvering over all surfaces, even with the tracks deployed. Folds in half when not in use for easy carrying and storage. Includes two 5" quick release patient restraints, a footrest, and a carrying case.

Model 11 First Call Stretcher

With its folding posts and wheels, the Model 11 Stretcher can be used in the street and then be placed directly onto the cot or into the vehicle. This stretcher may be rolled, fits into wheel ad post cups, and folds in half for compact storage. Posts and 4" wheels fold out of the way when not needed. The Model 11 comes with two burgundy restraints.

PT1100 | [Model 11 Emergency Stretcher with Wheels](#)

Flexible Stretchers

Constructed of 18-ounce nylon and solid oak slats, the flexible stretcher's heat-sealed seams protect the slats and reinforce the overall construction.

Three 2" web straps secure the carrier around the body and the six handles make it easy to carry the body.

Available in international orange and burgundy

AA5333 | [7" Wheel Cups](#)

Model 5 Mortuary Fastener

This fastener is permanently mounted to floor plates, securing cots and stretchers including Model 23, 24, 24-H, and 27-1 series.

Thumb screws permit easy installation and removal. The rear-fastener hook stores flat when not in use and rotates up and fastens as a ratchet mechanism when needed.

Specify your stretcher model when ordering. Not for use in crash-stable applications.

0565000 | [Model 5 Mortuary Fastener](#)

Ferno Scoop EXL® - Grey

The Ferno Mortuary Scoop EXL® may be placed under the body without rolling or lifting. The Scoop has three length options to accommodate different patient lengths and its easy-to clean surface is impervious to fluids.

MO6550 | [Ferno Scoop EXL® - Grey](#)

Ferno Model 65 Mortuary Scoop

The Model 65 Mortuary Scoop Stretcher may be placed under the body without lifting and the length is adjustable to accommodate bodies of various sizes. The two sides are completely separable and the unit folds for easy storage.

The scoop may be placed into the Model 330 First Call Cover or 335 First Call Pouch. Comes with three quick-release restraints in International Orange or Burgundy.

PT6500 | [Model 65 Scoop™ Stretcher](#)

Model 64 Body Scoop

The Model 64 Body Scoop may be placed under the body without rolling or lifting. The quick-release hinge separates at the top and bottom for positioning under the body. Simply snap the sides together and place inside the Model 330 First Call Cover, 335 First Call Pouch, or directly on the mattress. The unit is made of sturdy, lightweight aluminum. Restraints may be purchased separately.

MO6400 | [Model 64 Body Scoop](#)

Model 14 Slide-Under Body Lifter

This special lifter can be used without the attendant having to touch the remains. Simply place the frame bars along the side of the body and draw the supports under it. The body lifter also makes it easy to handle the body or move it from the cot to the embalming table. Included with the Model 14 is an arm retainer which minimizes the movement of the body.

Constructed of durable aluminum frame bars and four blue, plastic-coated, nylon straps. Weighing only 4.5 lbs itself, the lifter can carry up to 350 lbs.

O101400 | [Model 14 Slide-Under Body Lifter](#)

Model 101-H Hydraulic Operating Table

The power of hydraulics is yours with the Ferno Model 101-H Hydraulic Operating Table. Tilting and height adjustments are accomplished with a hydraulic foot pedal that delivers quick adjustments and individual settings, with the option of lowering or raising either end 28.5" to 40.5" above the floor for easy preparation from a standing or sitting position. The table top is in a convex shape to drain fluids away from the body and an extra-deep trough runs the perimeter of the table, eliminating the need for splash guards. Now also features directional wheels for easier maneuverability in narrow spaces, such as hallways.

MO1010 | [Model 101-H Hydraulic Operating Table](#)

Model 102 Folding Operating Table

The Model 102 Folding Operating Table is a true combination table, ideal for embalming, dressing and transferring. An exclusive, one-hand release easily adjusts either end of the table from 32.5" to 38.5" with the ends being independently adjustable. The table is constructed of a stainless steel top with a convex surface, tubular aluminum frame, and 6" ball-bearing wheels.

MO1020 | [Model 102 Folding Operating Table](#)

Model 103 Combination Operating Table

The Model 103 Combination Operating Table is a multipurpose table, ideal for embalming, transferring and dressing. For added convenience, each end can be adjusted independently for individual working height and drainage.

MO1030 | [Model 103 Combination Operating Table](#)

Side Extension Panels

The SEP provides a new dimension to the operating table. The sturdy extension panels may be attached to any existing Ferno operating table, which expand the surface allowing the embalmer to work on larger bodies. Another key feature of this extension panel is the ability to be used as a splash guard for general washing. The panels can be used on one or both sides of the operating table providing the embalmer increased flexibility. These features, along with the ability to easily install, remove, clean and store the SEP, provide the embalmer the opportunity to customize the table based upon individual needs.

Model 110 Showroom Truck

The Model 110 is a dual-duty truck that works as a showroom and utility truck. The polished aluminum frame is exceptionally strong and will look like new for years with minimal maintenance. Rubber tips hold caskets or rough boxes firmly in place while five-inch ball bearing wheels roll over obstacles with ease.

Model 112 Showroom Truck

The extra-long and wide wheelbase on the Model 112 Showroom Truck provides exceptional stability. The Model 112 performs equally well as a utility truck.

The strong aluminum frame will keep its high polish for years with a minimum of maintenance. Rubber tips hold caskets or rough boxes firmly in place and five-inch, ball-bearing wheels roll over obstacles with ease.
