Me Anyway*

CL20
All-Season Camping Lantern
165 lumens

FENIX

Fenix CL20

All-Season Camping Lantern

Designed with all-season campers in mind, the CL20 camping lantern supports AA battery and CR123A lithium battery to ensure optimum performance in cold seasons. The premium neutral white LEDs along with exclusive multifaceted globe provide 165-lumen anti-glare light for gear organization and other nighttime camping tasks. With built-in hanging loop and magnet for easy attachment, the additional red light equipped CL20 is a versatile companion whether on campsite or in tent.

Two color options
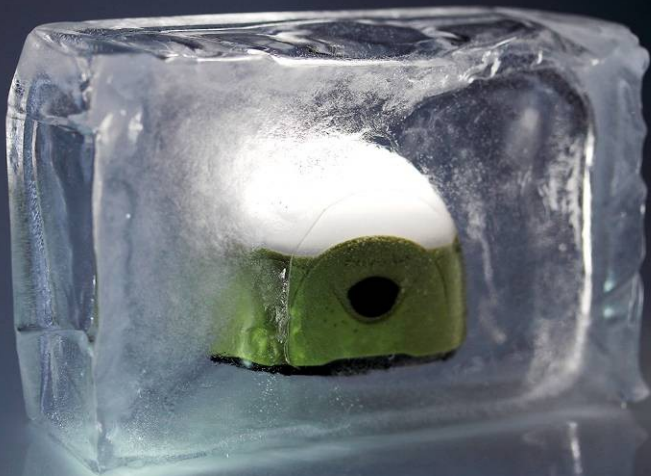

Olive green

Sky blue
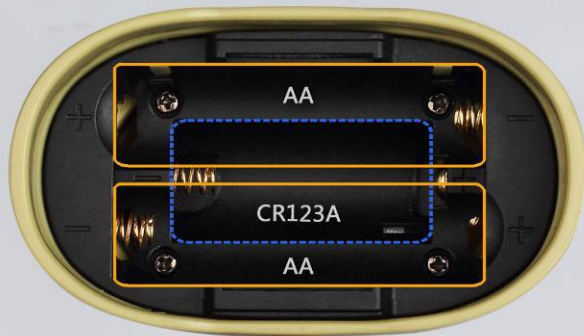

- All-season performance
- Innovative battery compartment
- Multifaceted globe for maximum output and anti-glare lighting
- Neutral white output plus red light
- Built-in hanging loop and magnet for easy attachment

All-season performance

Designed with all-season campers in mind, CL20 camping lantern supports CR123A lithium battery with operating temperature down to -40 degrees.

Innovative battery compartment

The battery compartment not only supports high performance CR123A lithium battery but AA battery as well. You can choose battery types according to different type of campgrounds.

Powered by two
AA batteries

Multifaceted globe for maximum output and anti-glare lighting

The inner of the globe are composed of 246 irregular aspheric diffusing units to provide optimum light transmittance and anti–glare lighting.

Neutral white output

Equipped with 9 neutral white LEDs, the CL20 provides 165−lumen maximum output with beam diameter of 10 meters. And it also runs for 56 hours 40 minutes on Low output.

Red light

With two additional red leds, the CL20 features 1.5–lumen
SOS mode and constant–on lighting mode.

Five outputs plus SOS mode
Gives you total command over output and runtime.

Output

Turbo — 165 lumens

High — 100 lumens

Mid — 50 lumens

Low — 8 lumens

Red Light — 1.5 lumens

Time: 3h 10min   4h 9min   9h 4min   24h 15min   56h 40min

Built-in hanging loop and magnet
for easy attachment.

Built-in hanging loop and magnet
for easy attachment.

White light

- ON/OFF: press and hold the switch for 0.8 seconds
- Output selection: press the switch to cycle through four brightness levels in the order of Low>Mid>High>Turbo when the light is turned on.

Red light

- SOS mode: double press the switch when the light is turned on.
- Constant-on: press the switch when the light is in SOS mode.

ANSI/NEMA FL 1		Turbo	High	Mid	Low	Red Light	SOS
OUTPUT		165 Lumens	100 Lumens	50 Lumens	8 Lumens	1.5 Lumens	1.5 Lumens
RUNTIME	Ni-MH Battery	2h 23min	5h 15min	11h 28min	71h 40min	27h 10min	/
	Alkaline Battery	3h 10min	4h 9min	9h 4min	56h 40min	24h 15min	/
	CR123A	2h	3h 31min	7h 32min	46h 50min	20h	/
DISTANCE		10m					
WATER RESISTANT		IPX-6					
IMPACT RESISTANT		1.5m					

The above-mentioned parameters (lab tested by Fenix using 2500mAh Ni-MH batteries, quality CR123A Lithium battery and the included Alkaline batteries) are approximate and may vary between different lights, batteries and environments.

- Utilizes nine neutral white LEDs and two red LEDs with an even and smooth beam
- White light with four output options and red light with two output options
- Powered by one CR123A Lithium battery or two AA (Ni–MH, Alkaline) batteries
- Built–in magnet for easy attachment
- Dimension: 78.4 mm (Length) x 45.2mm (Width) X 59.1mm (Height)
- 103.2–gram weight (excluding batteries)
- Digitally regulated output – maintains constant brightness
- One–button switch for easy and fast operation
- Reverse polarity protection guards against improper battery installation
- Made of quality plastic and high–transparency material
