

Excel programme of Internal Assessment Mark Calculation

Developed By: Abbas Vattoli, Assistant Professor in Commerce, AMAL College of Advanced Studies

Instructions:

It is prepared as per new CUCBSS (Calicut University Choice based credit semester system) suggestion

Enter letter Mark out 5 under each component of internal assessment

8 is the minimum pass mark for internal.

In case of more than one assignment or seminar done by students, then choose the best among them

In case of more than two internal test papers, then choose best two out of them and enter separately

some cells have been protected so you cannot edit them. But you can copy the entire worksheet to another

While pasting, choose "keep source column width" from paste special menu to get the same cell alignment

If you do not want to make further additions you can print the report. The print area are preset. So it

Alternatively To prepare report select the range containing data and paste in to another excel file or

if you want to paste the full set of data from other places, please ensure that you are pasting it as text
