Dear Ms. Mauch,

RE: project of vital importance for Europe, civilization as a whole
I am an independent researcher, PhD, an Israeli citizen, currently a pensioner, 80. I apply to you for assistance in my mission aimed at overcoming the present general ideological crisis of civilization now threatening the very existence of humankind. Underlying that crisis is the crises of modern science, philosophy and religion. So, to overcome that general crisis, it is necessary to reform the above three spheres of human intellectual activity while harmonizing them with each other.

What has prompted me to embark on the above mission was my decades-long independent research in exact sciences and humanities that surprisingly yielded results of fundamental, revolutionary significance for science in general. Those results contradict many of modern theories, programs of research and education and, therefore, have not been officially recognized yet. Nevertheless, I have managed to publish my works either on paper or online (see Enclosure) and, what is perhaps most important, developed a methodology for reforming modern science in general.

To proceed with the above mission, it is necessary now to establish an independent international institution committed to the task of the above reform. Such an institution, I call it the World Reform Center (WRC), may start as a small NGO for 7-10 persons sponsored by some national, international or philanthropic organizations. Before too long, it would start receiving good donations necessary to stimulate researchers and award their progress. I would like to direct such an institution for two years at least and prepare young researchers to substitute me when necessary. The establishing such an institution in Zurich would turn this city into the most powerful world scientific center and would be very much beneficial for its whole community. Recently I have applied to Dr. Cornelia Schuaz, Head of the Research and Academic Career Development Office of the UZH (tel. 044 634 48 55, email: cornelia.schuaz@forschung.uzh.ch) for assistance in my mission but, given my experience with European universities, the chance for a promising response is very slim. So I have decided now to apply to the government of Zurich who, in my opinion, is more responsible for the future of this country, at least.

In this connection would you please consider an opportunity to establish the above WRC in Zurich, sponsor its work and grant me a civil status, accommodation and conditions necessary to run the Center for about two years at least. If necessary, I would provide you with all the additional information on the matter.

Yours sincerely,
Igor Makarov, PhD
