Dear Mr. Fiba,

RE: proposal of cooperation for the future

The present situation is characterized by three major global trends:

- (1) the deepening of the present general ideological crisis leading to a new world war;
- (2) a rise of fascist, reactionary and destructive forces;
- (3) the breakthrough in fundamental and political sciences paving the way to the true socialist world.

We, New Marxists of Russia, have got the true scientific ideology and know how to consolidate progressive parties and organizations on the way to the true socialist world. We think Golos Germanii may become perhaps the main player in this struggle for the future.

In this connection we call upon you to start a massive propaganda of the ideology of NARODOVLASTIE (the people's power):

in Russia and Ukraine, using our online materials:

- (1) Обращение Комитета Гражданской Обороны: <http://kvisit.com/Swq3zAw>;
- (2) Возрождение СССР на новых принципах (Идеология): <http://kvisit.com/SjMLHAW>;
- (3) Возрождение РСФСР. Организация народовластия: <http://kvisit.com/SqavLAW>;
