

Anna Sundström
Secretary General
Olof Palme International Center
Stockholm, Sweden

24.06.17

Dear Ms. Sundström,
RE: New ideology for the Center

I am an independent researcher, PhD, a citizen of Israel, actually a Russian hostage in Israel, 81. During my almost 40-year-long independent research that I started in Russia late in the 60s and since 1992 have proceeded with in Israel, Europe and Canada, I achieved the results, not recognized officially yet, that amount, in my opinion, to a turning point in the history of science and civilization. Those results are the more important now that the general ideological crisis of civilization threatens the very existence of humankind.

So my current mission is to reform the ideology of modern society, which requires the reform of modern science, philosophy and religion. I have started such a reform, achieved significant results but such a historic mission cannot hinge long on the enthusiasm of a pensioner – it needs a broad international support and organization. At the time of the monstrous crisis of modern science and its institutions, when science has been increasingly becoming a new sphere of business, with all its devices, it would be useless for me to seek support from universities and scientific centers. This conclusion is confirmed by my decades-long experience in Europe, including the recent one in this country. Thus such international organizations as the Olof Palme Center seem now to be the only hope for civilization.

To become the real hope, the Center needs the proper ideology, the true scientific one. Fortunately, my research and works are able to provide such an ideology. In particular, I have managed to create the frameworks of the true sciences of politics and economics, the sciences nonexistent or underdeveloped before while socially most important.

I would like to remain in this country participating, in particular, in the activity of the Center. However, I am sorry to say, Russian security agents, the same kind of people who have kept me in thorough isolation in Israel for almost 20 years, seem to have found inroads to this country and, perhaps with their German collaborators, contracted an agreement with their local counterparts, as they did in Israel, to prevent me from contacting scientific and social organizations in this country as well. This conclusion is based on my useless attempts for a week to contact some responsible people in the Stockholm University and the Riksdag, as well as on the somewhat suspicious situation in my current hotel. So it would be necessary to alert the local security to investigate the supposed criminal involvement of foreign agents in my affairs in this country.

In this connection, having signaled the security on the above problem, could you please organize, possibly next week, my report at the Center on the true scientific ideology in order to discuss the necessary amendments to the current program of the Center, and, possibly, find the proper place for me in its leadership, as well as the proper civil status and living conditions for me in this country. Please see some relevant online papers and documents enclosed.

Yours sincerely,
Igor Makarov, PhD
