

Antonio Tanjani
President
European Parliament
Brussels

4.09.17

Dear Mr. Tanjani,

RE: Sponsorship vital for the future

I am an independent researcher, PhD, an Israeli citizen, 82, currently an asylum seeker in Sweden. In the course of my almost 40-year-long research, that I started in Russia late in the 60s and since 1992 have proceeded with in Israel, Europe and Canada, I achieved the following:

- (1) reformed modern physics, which is not recognized officially yet;
- (2) discovered the true interpretation of the General System Theory - the Golden Key to Science;
- (3) created the frameworks of the true sciences of Politics and Economics, the sciences nonexistent or underdeveloped before.

The above results amount, in my opinion, to a turning point in the history of science and civilization. Those results have encouraged and enabled me to start settling the present general ideological crisis now threatening the very existence of humankind. To that end it would be necessary to reform the ideology of modern society, that is its science, philosophy and religion. I have already started such a reform and worked out the general methodology for it.

So, June 18, I arrived in Sweden with that mission and, July 6, applied for asylum in this country. Given my age, I am planning just to put the project on track and prepare younger researchers to substitute me when necessary. To proceed with that mission, I certainly need a broad international support. To that end, I have already applied to numerous governmental, scientific and financial organizations in Sweden but in vain. The main reason perhaps was that those organizations did not consider themselves entitled to decide on such a global strategic issue. So it is now up to the European Parliament to do so, if it considers itself responsible for the future of Europe and civilization as a whole and is ready to take the necessary radical measures to ensure that future, given the recent events in the world.

In this connection would you please find a way to start sponsoring my above project by opening an account for me in one of the central banks in Stockholm for a sum of US\$500,000 (five hundred thousand US dollar), at least, necessary for me to acquire a small flat or a real estate in the Stockholm county, rent an office for a small NGO of ten or so persons, equip it and start working, with my regular reports for the progress, expenditures and other relevant issues to be submitted to your auditor. As my current status of an asylum seeker is very much vulnerable, the urgency of your positive decision on this my proposal is of crucial importance. Please see more on the matter in the online papers enclosed.

Yours sincerely,

Igor Makarov, PhD (Asylum case #51083734)

Independent Researcher (my website: www.reformscience.org)

My current address: Axel Adlers Gatan 2, 42132 Västra Frölunda, Sweden
