

Dear Amnesty International (18.09.2017),

I am an independent researcher, PhD, an Israeli citizen, 82, currently an asylum seeker in Sweden.. I arrived in Sweden (18.06. 17) with a scientific mission vital for the destiny of civilization. I tried to get support for my mission here, but failed. Then I applied for asylum here (6.07.17) and soon found myself trapped near Goteborg, in a suspicious hotel inappropriate for my living, with no or irregular subsidy, under control of some suspicious people, with no prospect for a better life, to say nothing of my mission. Honestly speaking, I doubt I will be able to survive in the present situation.

As to my mission, in the course of my almost 40-year-long research, that I started in Russia late in the 60s and since 1992 have proceeded with in Israel, Europe and Canada, I achieved the following:

- (1) reformed modern physics, which is not recognized officially yet;
- (2) discovered the true interpretation of the General System Theory - the Golden Key to Science;
- (3) created the frameworks of the true sciences of Politics and Economics, the sciences nonexistent or underdeveloped before.

The above results amount, in my opinion, to a turning point in the history of science and civilization. Those results have encouraged and enabled me to start settling the present general ideological crisis now threatening the very existence of humankind. To that end it would be necessary to reform the ideology of modern society, that is its science, philosophy and religion. I have already started such a reform, worked out the general methodology for it and launched a dedicated website: www.reformscience.org.

It was impossible to proceed with that mission in Israel, because of activity of Russian agents who have started an omnipresent secret war against me since my immigration there in 1992. Facts suggests that they have contracted an agreement with the Israeli security to isolate me thoroughly from the scientific community there. And they do so wherever I try to find conditions for my mission, now in Sweden, in particular.

I understand the tension of the situation: my independent research and the prospect of reforms threaten the privileges of some conservative circles of establishment and they are ready to go all out to prevent the reforms. On the other hand, the reforms are necessary for civilization to survive.

In this connection would you please:

- (1) apply to the Swedish government to provide me, as soon as possible, with a simple normal living conditions, or otherwise to return me to Israel; and
- (2) apply to the European Parliament with a request TO DEVELOP A SPECIAL PROGRAM FOR SPONSORING MY MISSION. because all their current programs and calls of granting are absolutely inappropriate for me; otherwise try to find a sponsor for my above mission in Europe or the USA.

Yours sincerely,

Igor Makarov (my Israel ID310295142; my current asylum case #51083734)
