

22.12.18  
MK Yuli-Yoel Edelstein  
Speaker of the Knesset  
Knesset  
Jerusalem, Israel

Dear Mr. Edelstein:

RE: my last appeal

I am an Israeli citizen, 83; emigrated from Russia in July 1992. I am a scientist, Candidate of Science in Technology, 1965 (approximately PhD), an independent researcher, with a great research, still engaged in a great scientific mission vital for the destiny of civilization, the Jewish people in particular. Since 2007 I have been living in a hostel (Haifa) controlled thoroughly by former KGB agents. Now that the fascist regime in Russia has been approaching its end, those mafia-like people would like perhaps to deprive me finally of any hope to succeed. Recently I have received one more confirmation of that my suspicion.

December 17, I invited a Russian-speaking electrician to fix my boiler switch. When doing the job, the man started asking me strange questions about my living and things, fancied some funeral gathering in my street, pretended there was some problem with a new switch, but then assured me of good results and finally did some quick cutting moves inside the switch that I did not regard. Unaware of deception, without checking up the final result, I paid the man 200 shekel and thanked him for the job. When in several hours I checked up the switch, it did not work. Next day another electrician showed me the reason for the failure – a thorough cut off of one of the four wires connecting the switch. I had only to thank God for not checking up the switch in the presence of that stranger.

Taking into account:

(a) that your decade-long ignoring my appeals to you, concerning my living conditions, my projects and my scientific mission, as well as your close cooperation against me with Russian agents, presents a threat to the destiny of civilization, to the destiny of the Jewish people, in particular, to say nothing of myself;

(b) that your above mentioned conduct testifies a degeneration of the state of Israel, its turning into a mafia-state, which is inconsistent with the UN membership and especially dangerous now, at the time of the general ideological crisis and the growing nuclear confrontation, I have decided to appeal to you once more FOR THE LAST TIME.

In this connection would you please do the following:

(1) instruct the Israel Academy of Sciences and Humanities to make, within three months and in close cooperation with myself, a scientific estimation of my works in physics and humanities, as mentioned in my online letter to the Academy of 5.06.17, [https://kvisit.com/Sg\\_D0Aw](https://kvisit.com/Sg_D0Aw) , (Enclosure. Relevant works, *ii.* 8, 9, 10); and

(2) provide me with living conditions, in Jerusalem or Tel-Aviv, more appropriate for my world mission described, in particular, in my online letter to you of 7.01.18, <https://kvisit.com/S8LH1Aw>.

Yours sincerely,

Igor Makarov, PhD
