

30 April 2020

Prof. Yadin Dudai – Chairperson, Sciences Division
Prof. Sergiu Hart - Chairperson, Humanities Division
Council of the Academy
Israel Academy of Sciences and Humanities
Jerusalem, Israel

Dear Colleagues,

RE: investigation of my research works

On 22.04.20, for the second time, I sent an email to Prof. Nili Cohen, President of the Academy, concerning my life-long research works in exact sciences and humanities; its URL: http://kvisit.com/SuL_3Aw. However, I have not received any response yet, like to dozens of my similar letters to Israel and European institutions for the last 12 years, since my research in physics was completed in rough. Moreover, since my arrival in Israel, July 1992, I have been actually blocked and isolated thoroughly from the scientific community, despite my living several years in Europe and Canada.

The main reasons for that situation, in my view, were my status of independent researcher, the present monstrous crisis of scientific institutions, the present general ideological crisis and, with that background, a strange conspiracy against me between the fascist-like Russian security, on the one hand, and their Israel and European counterparts, on the other. But now that the general ideological crisis threatens the very existence of humankind, the Covid-19 being one of its manifestations nowadays, such a fascist, mafia-like treatment of my research works and myself cannot be tolerated any longer.

In this connection, to break my present, unhuman, isolation from the scientific and civic community, would you please advise the President of the Academy to assign both a commission, with the task of investigating the scientific value of my research works, and a contact person for me to participate closely in that process or to be informed of it, at least.

Yours sincerely,

Igor Makarov, PhD
