

Mr. Benjamin Netanyahu
Prime Minister of Israel
Prime Minister's Office
Jerusalem

17.06.2020

Dear Mr. Netanyahu:

RE: appeal for extraordinary measures

I am an Israeli citizen, 84, an independent researcher, PhD. I apply to you for your assistance to my scientific mission of special importance for the destiny of civilization, the Jewish people, in particular.

The results of my decades-long independent research in exact sciences and humanities, not yet recognized officially, amount, in my view, to a turning point in the history of science and civilization. Those results have encouraged and enabled me to start settling the present general ideological crisis now threatening the very existence of humankind, the destiny of the Jewish people, in particular. Seeking support for my mission, I have applied to numerous universities and scientific centers in Israel and abroad but in vain.

It is quite natural that, with such a mission, challenging many current programs, with my current status of independent researcher, in a thorough isolation, with the former Russian KGB agents in Israel undermining my conditions, depriving me of means of communication and conspiring against me wherever possible, I have got powerful enemies among the corrupt scientific establishment and now found myself in a critical situation, having to seek an urgent national and international support.

In this connection, taking into account that:

- (1) civilization may die unless its present ideological crisis is settled;
 - (2) the present ultranationalistic Zionist ideology, having been useful at the initial period of the state, does not correspond to the present general trend of globalization and therefore contributes to the above general crisis, provoking nationalistic hatred inside the country and a rebirth of fascism and anti-Semitism abroad, thus presenting now a threat to the future of the Jewish people;
 - (3) without the true scientific ideology the Israel education teach sometimes obscurantism;
- would you please issue a strong instruction to the Israel Academy of Sciences and Humanities to evaluate the scientific value of my research works and then, possibly, assist me in establishing a new international institute, aimed at propagating the true scientific knowledge. Please, see Enclosure for more information on the matter.

Yours sincerely,

Igor Makarov, ID310295142

512/51 Hativat Carmeli, 32629 Haifa, Israel
