Dear Mr. Levin:

RE: Israel Academy obstructs science vital for civilization

I am an Israeli citizen, 84, an independent researcher, PhD. I apply to you for your assistance in my scientific mission of special importance for the destiny of civilization, the Jewish people, in particular, as follows.

The results of my decades-long independent research in exact sciences and humanities (see Enclosure [1], [2]) not yet recognized officially, amount, in my view, to A TURNING POINT IN THE HISTORY OF SCIENCE AND CIVILIZATION. Those results have encouraged and enabled me to start settling the present GENERAL IDEOLOGICAL CRISIS now threatening the very existence of humankind, the destiny of the Jewish people, in particular; the crisis now supposedly manifesting itself with a corona-pandemic.

Seeking support for that my mission, I have applied to numerous universities and scientific centers in Israel and abroad but encountered insurmountable obstacles. On the one hand, such a reaction of the scientific community to my research was quite natural, given my independent status, the present crisis of modern science and the challenge my works present to many current programs. On the other hand, that reaction threatens the destiny of civilization, the destiny of the Jewish people in particular.

In this connection, taking into account that:

(1) the present general ideological crisis leads civilization to a world war, perhaps a nuclear one;
(2) the present Zionist ideology, having been useful at the initial period of the state, does not correspond to the present general trend of globalization and should be updated;
(3) without the true scientific ideology the Israel universities teach sometimes obscurantism;
would you please issue a strong instruction to the Israel Academy of Sciences and Humanities to evaluate the scientific value of my research works and then, possibly, assist me in establishing A NEW INTERNATIONAL INSTITUTE, aimed at generating and propagating true scientific knowledge. See Enclosure for more information.

Yours sincerely,

Igor Makarov, ID310295142
