

MKYariv Levin
Speaker of the Knesset
Knesset
Jerusalem
Israel

26.10.2020

Dear Mr. Levin:

RE: My research, my holocaust in Israel and its consequences

I am an Israel citizen, 85; immigrated in Israel from Russia on July 26, 1992. My mother was a Jew, my father a Russian. I am a scientist, PhD, with a great independent 40-year-long research and a great scientific mission of great importance for the whole civilization, the Jewish people in particular. However on my arrival in Israel, the Russian security agents have perhaps contracted a secret agreement with their Israel counterparts (perhaps the Shin Bet) to isolate me from the scientific community and prevent me thoroughly from corresponding with anyone.

Since then I have been living in Israel a life of an animal, not a human being. Wherever I go, whatever I do, I am surrounded by Russian agents undermining my conditions, spying on me, stealing my things and documents, fabricating false documents and sabotaging my business. At present, despite of all modern IT devices, I have absolutely no communication channels deserving their name. Unless this is a fascism, what is it? I have failed to get asylum in other countries because of the damage of my health after a terrorist act against me committed by the same Russian agents on the eve of my immigration in Israel.

No wonder that in the above conditions the Israel Academy of Sciences and Humanities has repeatedly refused to meet my requests for a professional estimation of my research works in physics, politics, economics and the theory of science. No wonder that in the above conditions the Israel Supreme Court of Justice refused to consider my application on the attempts by Israel authorities to provide me with false Israel bio-documents. At present I live in a hostel controlled thoroughly by Russian agents.

In this connection could you please discuss this letter at the Knesset and consider the possibility:

- (1) to denounce thoroughly the supposed secret agreement between the Shin Bet and the Russian security on blocking, spying and falsifying my communications in Israel and abroad;
- (2) to remove all technical and technological obstacles for my free and safe communication in Israel and abroad;
- (3) to investigate the competence of the current administration of the Israel Academy of Sciences and Humanities and the harm to the Israel education and the ideological development of the Jewish society in general perpetuated by the Academy's above conduct;
- (4) to investigate Israel's contribution, by the above actions, to the present general ideological crisis of civilization now threatening the very existence of humankind;
- (5) to investigate Israel's possible contribution, by the above actions, to the creation of conditions facilitating the appearance of the current Covid-19 pandemic;
- (6) to provide me with the proper Israel bio-documents, because my current ones may be false;
- (7) to provide me with the proper accommodation and, perhaps, conditions for my current mission.

Yours sincerely,

Igor Makarov, PhD
