

Stop falling prey to unscrupulous con artists

Scammers are stealing money from companies that are still suffering from the pandemic. Thankfully, the new Reverd's Anti-scam Shield is now available to automatically block scam calls.

Wyoming, Sheridan, Mar 11, 2021 ([IssueWire.com](https://www.issuewire.com)) - As it reads in the [CNN Business article](#) **scam and robocalls are on the rise again**. It is well known that the scam calls cause millions of dollars lost to businesses. Not anymore.

The new Reverd's [Anti-scam Shield](#) integration provides real-time verification of incoming phone calls and **automatic scam blocking** for RingCentral business cloud phone system. It's easy to install and comes with 30 days free trial, no credit card details required. Short video https://youtu.be/U_FZIFNZk3s

The new Anti-scam Shield provides real-time instant verification and automatic blocking of the incoming scam and robocalls. Reverd's constantly updated global database of crowd-reported harassing phone numbers has more than **9 Million blacklisted numbers**. To decide whether a call is a scam, they do not use scoring or computer algorithms; instead, all reports are submitted personally by scam victims and checked by human administrators.

With a press of a single button, employees of a company using the Anti-scam Shield will block and report new scam calls.

As per Reverd's CEO Stan Zhekov, "It is rewarding to see businesses of all sizes, from a two-person family business to multi-billion corporations now using the Anti-scam Shield to protect their phone systems, their employees and earnings from unscrupulous scammers." He also adds, "The goal is to keep the software as efficient and user friendly as possible. This integration is now available for **TELUS Business Connect, AVAYA Cloud Office, and AT&T Office@Hand.**"

Humanity is undergoing difficult periods of radical transformation, which are accompanied by pandemic alienation and social disconnection. Therefore, direct and reliable scam-free communication is critical.

Reverd is actively evolving and upgrading technologies to provide individuals and companies with efficient, dependable, and cost-effective tools for keeping their phones and business phone networks free of scam calls.
