

8.02.2022
Mr. Joseph Biden
President of the USA
President's Office
White House
Washington, USA

Dear Mr. President of the USA:

RE: letter to President J.Biden

I am an Israeli citizen, 86, an independent researcher. I apply to You seeking Your preference for me as an outstanding researcher to immigrate to the United States of America. As to my background, I graduated from the Moscow Institute of Communications (1958), studied at its post-graduate course (1961-1963) and was conferred the scientific degree of Candidate of Science in Technology (1964). Then I worked as a Senior Engineer and a Senior Researcher at the Moscow Institute of Radio and other firms in Moscow. In July 1992, I immigrated in Israel but under some strange secret agreement supposedly between the Russian Intelligence and the Israeli security services.

As a matter of fact, late in the 60s I started my independent research in Systems Theory and Theoretical Physics. It was to get conditions to proceed with that research that was my main purpose of immigration in Israel. However, the above secret agreement proved to deny me of almost all the necessary conditions I had sought for. I was almost thoroughly isolated from the scientific community in Israel and abroad. My communications were blocked and usually spoiled, my correspondence intercepted, and all scientific conferences prohibited. Sometimes they stole, falsified and spoiled my official documents.

Nevertheless, I managed to complete my research in rough. Its main conclusions are as follows:

- (1) the reform of modern theoretical physics that solves actually all its cardinal problems;
- (2) the discovery of the true interpretation of the General System Theory;
- (3) the discovery of true sciences – the Science of Politics and the Science of Economics, the latter known to have been started by Karl Marx.

As a whole my research amounts, in my opinion, to a turning point in the history of science and civilization. So it has become clear that to complete the research I need a more appropriate conditions.

In this connection, would you please take actions to assist me in immigrating in the USA and, possibly, provide me with favorable conditions for my work there - for the good of America and civilization.

Yours sincerely,

Igor Makarov, ID310295142

Independent Researcher, PhD
