

SOPH DIPAOLA

UX DESIGNER

Drawing from a rich background in the arts, Soph brings a distinctive blend of creativity and analytical thinking to their work as a UX designer. Their fascination with the process of transforming ideas into tangible experiences fuels their passion for crafting innovative digital solutions. With a keen ability to seamlessly integrate creativity and logic, they approach UX design with a holistic perspective, ensuring that every interaction is both visually captivating and intuitively functional. Their capacity to balance creativity with realism allows them to envision bold, yet practical design solutions that resonate with users on a profound level. They infuse empathy and storytelling into every aspect of the user journey, fostering meaningful connections and enhancing overall user satisfaction.

EXPERIENCE

FRONT-END DEVELOPER

Digital Extremes

2023

- refactored backend UI with Angular JS in behind the scenes gaming client admin portal

TOOLS ENGINEER

Big fish Games

2022

- Built & developed a server-less cloud gaming environments GUI tool in React to ensure multiple user capabilities per each individual environment and an accessible way to interact with them.

FRONT-END DEVELOPER

hs.credit

2021-2022

- Built out front-end legacy code for an educational nt-NFT PWA app
- Worked closely with back-end engineers for smooth server-client communication
- Strategized with founder and non-technical team members
- Actively planned out the trajectory for the engineering team
- Worked towards MLP to achieve 1% adoption (80,000 users)
