RE: TIP REPORT

The following TIP Amendment has been requested:

Cochise County: Davis Road Project Assessment and DCR (CCH18-01): This is a CBI Project that was programmed in 2011. At the time, the purpose of the project as presented in the CBI application was a planning study focused on improving the Davis Road corridor. However, ADOT has advised the County that the project must show progression to construction or they will not proceed with the planning process. The County is contesting ADOT's interpretation of the grant purpose. However, to ensure project progression, it is proposed that ROW acquisition be programmed in FY18 for \$250,920 Federal and \$16,143 Local. Project total is \$267,063. Karen Lamberton can provide more detail at our meeting.

Attached is our most current version of the TIP for your records.

Hello Chris,

I am submitting the following off-system bridge for consideration for rehabilitation or replacement:

1. Owning Agency
Town of Clifton
2. Bridge name as listed in the Arizona Local Government System Bridge Record.
Chase Creek Br #1
3. The structure number as listed in the Arizona Local Government System Bridge Record.
Structure Number 04 8536
4. The sufficiency rating as listed in the Arizona Local Government System Bridge Record.
23.40
5. A short discussion on the reasons/need for replacement/rehabilitation.
This short bridge is 115 years old and is the only way in and out of the North Clifton section of town. That section contains a large municipal RV park, the neighborhood of Oakie Town and access to the Polly Rosenbaum bridge and the recreational amenities beyond, including a public restroom and access to the San Francisco River.
6. Photos of the structure.
Please see the attached ADOT Photo Report. I have also attached the Structure Inventory and Appraisal.

Many thanks,
Ian

Project Status:		<p>ADOT Assistant State Engineer (Annette Riley), Senior Project Manager (John Dickson) and Project Manager (Susan Webber) met with Karen Lamberton on Tuesday, August 16, to discuss status of SS986 and SZ050. Because it would involve the unnecessary expenditure of Federal and County funds, ADOT does not want to complete design of the project until Cochise County has acquired a significant portion of the ROW needed for the project. ADOT will contact FHWA to verify when advertisement of the project must begin based on the authorization date for Preliminary Engineering. Karen Lamberton stated the County prefers the design be completed before ROW acquisition begins. A follow-up meeting/conversation will be scheduled by mid-October. (9/7/16)</p>

Project Status:		<p>ADOT Assistant State Engineer (Annette Riley), Senior Project Manager (John Dickson) and Project Manager (Susan Webber) met with Karen Lamberton on Tuesday, August 16, to discuss status of SS986 and SZ050. Annette Riley informed Karen Lamberton that, because the FHWA authorization received in September 2012 was for Preliminary Engineering, the project must be advertised for construction within 10 years of the date of authorization. Susan Webber is to verify this information with FHWA. Karen stated the PA was always intended to be only a planning document, and the County does not intend to construct the project within that time frame. The County would not be able to repay the federal funds used to date on this project. (9/7/16)</p>
