# Greenlee County Demographic Report

Greenlee County has a population of **9,504** with a minority* population of **5,030** or **52.93%**.

Greenlee County has **3,225** total households.

About the U.S. Census Bureau's 2014-2018 American Community Survey 5 year Estimates

The American Community Survey (ACS) is a nationwide survey that uses continuous, multi-year sampling to produce estimates for a variety of geographical areas, the smallest being the Census Block Group. MAG uses the 5-year estimates because they provide increased statistical reliability for less populated areas and small population groups. ACS is a sample, meaning that it is not a full census of the population. For the 5 year estimates, surveys are collected from a sample population over the 5 year period. These surveys are then used to create estimates for the whole population. And, because it is an estimate of the whole population, there is a degree of uncertainty in the results. This degree of uncertainty is reflected in the margins of error that are calculated and reported along with the results of the survey. The margins of error are calculated at the 90 percent confidence level, meaning that users of the data can be 90 percent confident that the range reflected in the margin of error contains the true value. The margins of error are not reported on this web site, but are available from the Census at http://factfinder.census.gov/or are available upon request from MAG. More information on the methodology of the American Community Survey is available at http://www.census.gov/acs/.

* Minority population is defined as the population that is of any race other than non-hispanic white.
