

Below is the 3rd impeachment request sent to Tennessee House Speaker Cameron Sexton, and approximately 90 Tennessee Republican County Chairmen. One county chairman described the impeachment request as **BS**. Another county chairman said he did not **“need or intend to read this stuff.”** In the end, 6.5 million Tennesseans will ultimately decide if child sex abuse, murder, rigged grand juries, and public corruption, are **BS**, or information elected public servants should read. See *information below and subsequent pages*.

Mr. Davis,

If you believe a crime has been committed please reach out to law enforcement. This is not a matter of the local Republican Party chairs, and accusations we have neither the ability or authority to address.

I too agree with and echo my friend, Chairman Crawford of Cumberland County.

I will probably make many of you angry with this; however, I truly feel it needs to be said.

The initial email from Mr. Davis was nothing more than an informational email sent to let the TN county party chairs know what is out there. Nowhere in his email does he ask for a course of action from any of us.

As chairmen of our local parties, isn't our job to be aware of what is out there, regardless of how we personally feel about the topic? Personally, I'd rather have the information so I know how to counter it.

Please know this is NOT an endorsement of what is presented in the initial email. It is simply a challenge for all of us to stay vigilant in our fight for conservatism.
