**Re: *Fogg, et al. v. Garland*, EEOC No. 570-2020-01293X; Agency Case No. M-94-6376**

Dear Matthew:

I write to follow up on our recent communications with you individually and with the other Class Agents, including your April 13, 2022 letter.

Despite our letters to you on March 7 and 18; our individual calls with you on February 16, 17, and 18; and our Class Agent calls that you participated in on February 15, February 17, March 11, and March 15, you continue to spread misinformation among class members, present false versions of our discussions, and demonstrate your inability to take conversations surrounding programmatic relief seriously. We take contemporaneous notes during our calls and meetings with you and with other class members, and your characterization of things said is often false.

We disagree with your letter and are seriously concerned about your fitness to continue as a Class Agent. We have already corrected your mischaracterizations point-by-point in our prior letters and do not believe that continuing this back-and-forth is productive.

Sincerely,

A handwritten signature in black ink that reads 'David Sanford'. The signature is written in a cursive, flowing style.

David Sanford
