

## In What Way Can SEC's ESG Disclosure Proposal Benefit The Mutual Fund Investors?

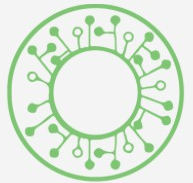

## What Is The SEC's ESG Disclosure Proposal?

The SEC's [Disclosure Proposal](#) would require mutual fund companies to disclose their exposure to ESG risks and mitigation plans. ESG risks are those associated with environmental and social issues, including climate change, water scarcity, deforestation, and human rights abuses.

## The Benefits Of ESG Disclosure For Mutual Fund Investors Include:

- Increased awareness of ESG risks
- Shift focus to best practices on sustainability
- Attract investors
- Transparency in processes

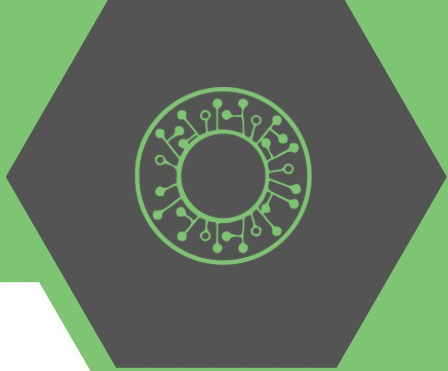

## How Can LOCOMeX Group Help Mutual Fund Investors With ESG Disclosure?

LOCOMeX's AI-powered data-driven predictive analytics tools help investors comprehensively track their investments from an ESG metrics standpoint. This project-based ESG scoring tool comes with the ability to search for and compare various ESG metrics to give meaningful insights into ESG reporting and help potential investors evaluate their investment decisions.
