

## The Honorable Dr. Matthew Fogg

### BIO

Law enforcement Officers take an oath to uphold the laws of the land by any means necessary at any given time. This means that law Officers may have to report colleagues who are breaking the law. But the ever-present internal culture also, known as the 'blue wall of silence' dictates that law Officers who report wrongdoing by other law Officer's will face career destruction and/or have their lives jeopardized by the same colleagues who will protect the internal culture of indifference. Therefore, the question becomes should law enforcement Officers remain silent amid wrongdoing or blow-the-whistle knowing the severe internal consequences he or she may face.
