About Ship Smart

Ship Smart's main goal has always been to provide the best customer service possible. We understand that relocating is a stressful experience, and our top priority is to guarantee that all of our customers are well-informed and confident in their decision.

Ship Smart is to be the industry leader in small move and furniture transportation with low rates and great customer service.

Do need to transport furniture across a long distance?

At Ship Smart, we've changed the rules for **furniture shipments**, making the procedure much easier while keeping costs low. We've spent the last two decades honing our procedures so that we can provide the best service at the most cost-effective prices. And, with over 300 locations nationwide, we can ship furniture long distance from state to state, coast to coast, and even internationally.

What we can ship for you!

We handle oversized packages that are too large for FedEx and UPS to handle. You can rest assured that no matter how small the piece or pieces are, we will complete them for you and at a reasonable cost. You've arrived to the perfect location if you want to ship just one item, two pieces, or an entire set of **furniture shipping**. We have experience shipping items like:

- Living room sets – couches, ottomans, end tables, and TV stands
- Dining room sets – tables, chairs, china cabinets, and hutches
- Bedroom sets – beds, dressers, nightstands, and mattress sets
- Office furniture – desks, bookcases, and cabinets

Why to choose Ship Smart?

It's always the same question. The answer is straightforward: we're the best in the business! We are seen as such for a variety of reasons: To mention a few, we have an A+ rating with the Better Business Bureau (BBB), excellent evaluations on Trust Pilot and numerous other online forums, and a courteous, professional, and highly experienced customer support team.

So, with a furniture shipping estimate, you can find out your costs in minutes online.
