

Forever Vital Special: MVA Forte

For whom?

MVA Forte is aimed at people whose vitality has been burdened by the presence of all kinds of toxins, especially heavy metals, which can start to limit functioning.

Most common vitality undermining symptoms of toxin load are:

Chronic fatigue, brain-fog, dizziness, poor concentration, memory loss, irritability, chronic diseases, inflammation, Long Covid, Lyme, lung, frontal sinus and sinus problems, muscle and joint pains, lymph accumulation and thickened lymph nodes, poor circulation, skin problems, allergies, heart-rhythm complaints, poor sleep, all types of autoimmune diseases and so on.

Ingredients MVA Forte:

MVA Forte is a combination of Mother Earth magnetic clay ([MVA Detox](#)) and the specifically formed crystalline structure of Zeolite in a specific ratio for the optimal detoxification effect. The addition of zeolite used in MVA Forte is a pure, ultra-fine micronized Zeolite of 100% volcanic powder in various sizes from 0.32 to 1.36 µm. As is used in Forever Vital supplements the effect is enhanced with corresponding frequencies and BG3 Bio-Signatures.

What is the secret of MVA Forte?

- The 2 main components are negatively charged and thus attract to themselves the usually positively charged toxins and heavy metals. Whereas Zeolite is specifically attracted to certain metals (e.g. lead goes before mercury), the MVA detox does not have this and thus cleans up what Zeolite leaves behind.
- Instead of offering one particle size, MVA Forte contains a range of particle sizes. This provides a more complete detoxification of the whole body. Smaller particles are introduced into the bloodstream, allowing them to detoxify the body's fluids and cells and thus can be excreted through the urine. While the larger particles remain in the digestive tract to be excreted through the faeces. This range in microns provides a more complete detoxification and also reaches the finest capillaries in the lungs and passes through the Blood Brain Barrier in the head.
- The dosage paradox. The biggest mistake anyone can make is taking too low a dose. The traditional 'start low and slow' approach to supplements does not apply to MVA Forte. Taking too low a dose leads to detoxification reactions, redistribution of toxins in the body and ineffective detoxification. Although it seems counterintuitive, in fact, if you experience a detoxification reaction by taking MVA Forte, you should immediately take a higher dose. If necessary, do this in consultation with your contact person.
- MVA Forte is of a high & pure quality which accelerates results and reduces or eliminates the detox reaction, even in sensitive individuals when used correctly.
- The stored toxins released causes 'aggressive substances; acids' in the body which gives damage to the cell-walls and and mucous layer in the intestines. MVA Forte contains a quantity of alkalizing minerals that allows it to neutralize the acids. The impressive assortment of minerals, including calcium, iron, magnesium, potassium, manganese, sodium, sulphur and silica in a natural ratio to each other, are the building blocks that contribute to repairing the resulting cell damage.

MVA Forte's action at a glance:

- * Pure MVA Forte powder safely removes heavy metals, chemical pollutants such as glyphosate and other pesticides from the body
- * Detoxifies radiation (nuclear, medical, X-ray, EMF, mobile phone, Wi-Fi, Smart meter)
- * By removing toxins, you take away the 'nurturing environment' from all types of viruses (including mutants) and other pathogenic microbes harming our vitality
- * Removes mycotoxins, mould spores, fungal infections and yeast infections

- * Restores your immune system (stops invading pathogens and helps with autoimmune disorders such as rheumatoid arthritis, psoriasis, HIV and lupus)
- * Natural remedy for cancer prevention (without harmful side effects)
- * Protect against leaky gut by strengthening the intestinal wall. Especially in combination with **Digestive Strength**.
- * Protect kidney function through heavy metal detoxification
- * Restores lost energy (created by chronic inflammation, infections, radiation and exposure to heavy metals & other chemical toxins)
- * Balances healthy cholesterol levels (from dietary cholesterol)
- * Alkalizes your body (Pathogens and cancer cannot live in an alkaline balanced pH body environment)
- * Better detoxification results are achieved together with **Deep Cleanse Energy Boost** This directly addresses inflammation and restores nerve synapses to support all body processes and for clearer thinking.

Energy Exchange (EE) MVA supplements:

MVA Detox 300 grams and 30ml frequency bottle EE €34.95

MVA Forte 300 grams and 30ml frequency bottle EE €55,-

Intake suggestion adult:

The correct intake dosage is determined by your body's reaction at the starting dosage of:

3 grams twice daily with 3 drops of frequency in a glass of distilled water.

Experience in practice, as we have described in this document, what is the best dosage for you, possibly in consultation with your contact person, to achieve the best results.

Use summary: To detoxify effectively with MVA Forte, you need a relatively high dose, and the more presence of toxins and heavy metals, the higher the dose.

Duration and follow-up steps:

MVA Forte is part of a total approach and never stands alone. Depending on the degree of toxins and heavy metals present in the body and the body's response to the approach, long-term use is necessary for the boosting of vitality.
