International Online Premiere

**Richard St. Barbe Baker OBE, Hon. LL.D.
Global Conservationist and Humanitarian**

David Suzuki, David Attenborough, we know who they are and the fantastic work they are doing. Richard St. Barbe Baker started the first pioneer green group for the environment - The International Tree Foundation. It went viral and spread world-wide. By some estimates, organisations he founded or assisted have been responsible for planting billions and trillions of trees, internationally.

**Be like a tree in
pursuit of your
cause.
Stand firm,
grip hard,
thrust upward.
Bend to the
winds of heaven.**

**From our hearts.
With our hands.
For the earth.
All the world
together.**

A powerful, & dynamic speaker, Baker planted seeds in the hearts of people, influencing environmental protection, humanitarian efforts, tree planting & tree protection internationally.

There are those who have become the Friends of the Trees

Hear from global conservationists & ecologists who went on in Baker's footsteps to make a huge impact.
