

# Rainbow Riches Megaways Slot Overview: Free Spins, Theme, RTP & Bonuses

It feels like years ago when we first met Barcrest's illustrious Leprechaun. Rainbow Riches Megaways Slot looked to be a good enough contrast to the typical 243-way slots we were playing back in the day when we were looking for something new to try.

What stood out about it, aside from enjoying a terrific session on it that included a free spins round with an absurd number of retriggers, were the strangely rudimentary but seductive sound effects and graphics. We didn't learn about the game's iconic status until much later, particularly in the UK, where it quickly rose to prominence as one of the most played slots in recent memory after its release.

The time has come for the Leprechaun to enter the modern century in a slot game that retains the timeless quality of the original while also gaining from the exciting activities provided by the Megaways engine.

After a long line of Rainbow Riches games, this one uses 6 reels and a random assortment of symbols on each reel, creating an extended maximum of 117,649 ways to win. It has cascading reels, a Super Gem Bonus feature that converts all gems into matching symbols, free spins with an endless win multiplier, and Super Gem Bonus. On all platforms, Rainbow Riches Megaways Slot may be played for anywhere from 20 cents and 20 euros per spin.

In terms of creative direction, the designers took care to adhere to the original formula in the final design. This holds true for the game's sound, graphics, and feel in general. The reels have an Irish folklore motif and are covered with gold. The background is a beautiful scene of lush, green countryside. A rainbow emerges from a pot of gold that is stuffed to the gills with gold coins just below the instantly recognizable emblem.

The standard A through 10 royal values, together with blue, green, purple, and orange gems, can be found on the reels. The diamond is the most profitable, paying out 50 times your bet for 6 of a kind. A horseshoe is used as the wild symbol, which acts as a stand-in for all other symbols.

## Rainbow Riches Megaways Slot: Features

The Megaways gaming engine is probably already well-known to the majority of readers. The idea of Megaways, which was first created by Big Time Gaming, is around its transformative reels, which.

In this specific game, it can result in an outcome of 2 to 7 symbols on reels 1 and 6, and between 2 and 6 symbols on the remaining reels, every time you press the spin button.

According to some straightforward math, each spin has a potential range of 324 to 117,649 winning combinations. A horizontal reel is located above reels 2, 3, 4, and 5. It contains extra symbols that help form neighboring winnings as well as unique symbols that only occur on this reel.

The Megaways concept is also frequently paired with cascading reels mechanics, which is also the case here. All symbols that are a part of a winning combination explode to make room for fresh symbols. Up until no more winning combinations are visible, this chain effect keeps repeating.

Rainbow Riches Megaways Slot comes with the Super Gem Bonus feature. It is somewhat similar to Blueprint Gaming's mystery symbols feature, except it is activated when a Super Gem shows up on the horizontal reel as opposed to appearing as a question mark throughout the reel set. When it does, one matching randomly selected gemstone is substituted for each high-value gemstone sign that was previously visible.

Even though the base game has excellent potential, it is the Free Spins function that allows players to achieve genuinely significant prizes. It activates and awards you 12 initial spins whenever 4 or more scatter symbols appear anywhere on the main reels.

Five additional Free Spins are given for each subsequent scatter that appears. All of these Bonanza-style games revolve around the unlimited win multiplier, which rises by 1 with each winning cascade and never decreases. During the free spins round, +1, +2, and +3 symbols may appear on the top reel to give you additional spins.

If you don't want to wait for the free spins feature to drop organically, you can opt for the Buy Pass feature. For a cost of 100 times your stake, you'll gain direct access to the free spins. If you're feeling a bit more adventurous, you could go for the Take a Chance option instead.

Hoping that the arrow lands on the green segment of the circle, your odds of triggering the feature depends on the chosen stake - for a cost of 25, 50, or 75 times your stake, you will get a 25%, 50%, or 75% chance of triggering the bonus respectively at [the luckiest time to play dragon slot](#).

Finally, there is the Bonus Bank feature, which reduces the price of the free spins bonus. 'Bank Off Wins' adds all wins to balance, 'Bank All Wins' adds all wins to the 'Bonus Bank', and 'Bank Small Wins' adds 3x stake or less to the 'Bonus Bank'.

## Rainbow Riches Megaways Slot: Final Verdict

Aside from a couple of minor deviations, Rainbow Riches Megaways Slot is a rather typical Megaways offering. For example, it's not too common for these slots to have different reel height settings as is the case here where the middle reels will give you no more than a maximum of 6 symbols as opposed to 7 on the first and last reels.

Moreover, we found the RTP to be slightly lower than what you normally see in other Megaways slots, but being Barcrest, whose slots are usually around the 95% mark, we're not too surprised.

Medium to high variance, it offers outstanding potential reaching well over 10,000 times your stake. The high roller should take notice, however, that the game is capped at a maximum payout of 250,000€.

Overall, it's a Megaways game as good as any other and will appeal to all players that enjoy these types of slots that are known, not only for their great potential but also for the extended and entertaining gameplay they have to offer. Rainbow

Riches Megaways Slot is, in our opinion at least, by far the best game in the Rainbow Riches series, other than Microgaming's [Immortal Romance](#).

If you're a fan of the Megaways game mechanic we suggest you take a look at Barcrest's second Megaways slot and their first-ever branded release Beetlejuice Megaways. For more Big Time Gaming-related mechanics and slot reviews, [check out here](#).
