We wouldn't anticipate playing a Microgaming slot machine without at least one unique feature. Fortunately, this game's reels have a ton of them installed.

The Wild Symbol is the first of its additions. This one can appear on any of the five reels and will take the place of all other regular symbols to increase your chances of winning.

The wild addition to this game is the game's own logo, which has a maximum coin payout of 7,500. In addition to offering additional unique benefits, it accomplishes this by doubling any win that it contributes to.

The Wild Celebration Feature, another feature in this slot, is available. This one can happen at any time and, if it does, will transform up to five reels into fully stacked wilds. While this bonus is active, free spins cannot be generated, but

The arrival of the bonus star symbol initiates the Free Spins Feature, which is another matter. To enter the Finer Features round, you must make sure that three, four, or five of these symbols appear anywhere on the reels. As you continue to play, more entries will successively unlock more bonus features for you to enjoy. As a result, the several free spins rounds proceed as follows:

- Coffee & Chocolate. From the moment that Finer Features are initially activated, this round will be in effect. You get 10 free spins with a 5x multiplier applied to all winning combos.
- Wine & Cheese. This feature round is activated after the sixth time you activate Finer Features, and it awards you 15 free spins. The Wild Wine Feature will be active for this round. Watch for the related symbol to occur on reel 3, since it has the potential to randomly turn other symbols into more wilds.
- Whisky & Cigars. This comes with 20 free spins for you to use starting after the tenth time you start the Finer Features round. The Burning Wilds Feature, which sees burning wilds randomly change other icons into multipliers of 2x or 3x, is active throughout. You receive a 6x multiplier if two symbols begin to burn.
- Champagne & Diamonds. The Finer Features round becomes active and awards you 25 free spins if you are able to access it 15 times. During this round, the Rolling Reels Feature is activated, which causes successive wins to multiply a multiplier by up to 5 times. Additionally, Rolling Reels might grant you numerous consecutive victories.
