

## The Legal Basis for the White Rose Action

- 1) NAVSTAR's primary purpose is to guide missiles for a U.S. first strike -- a massive nuclear surprise attack.
- 2) NAVSTAR is useless for retaliation. Once any nuclear explosions have occurred, their side-effect, the electro-magnetic pulse (EMP) would completely disable the NAVSTAR satellites.
- 3) NAVSTAR violates international law - especially the Nuremberg Principles - to which we are bound by Article Six of the Constitution.
- 4) The Nuremberg Principles forbid preparing for a war of aggression. A first strike is clearly a war of aggression.
- 5) The Nuremberg Principles forbid preparing for genocide. A full scale nuclear assault will be genocide.
- 6) By law, citizens are entitled to intervene if they see a crime being committed.
- 7) Katya was entitled to intervene in the NAVSTAR system, which violates international treaties we have signed.

"My friends, please do not give way to anger: accusations do not persuade. We are here to speak truth to power. This must be done nonviolently if it's to be done at all."
