

ARTS ACTIVITIES

Take a tik tok / YouTube video of yourself performing your very own tree planting song in the afforestation area. This is one written by Richard St. Barbe Baker, with its actions.

From our hearts

Hold your hands over your heart.

With our hands

Extend both hands out in front of you.

For the Earth

Bend at the knees and extend hands towards the earth.

All the World Together

Raise up while also raising your hands above your head inviting the world to come together.
