

Celebrate Health & Wellness

George Genereux Urban Regional Park

Explore 60 hectares [148 acres] of forest. Dr. George Genereux was an accomplished athlete who won the gold medal in Olympic Trap at the 1952 Summer Olympics, while still a student at Nutana Collegiate.

Forests for Our Future

Richard St. Barbe Baker Afforestation Area

Discover 7 hectares [17 acres] of West Swale wetlands nestled within 132 hectares [326 acres] of woodlands planted 50 years ago now a diverse, semi-wild, area to roam and enjoy.

Local Learning Packages

Richard St. Barbe Baker Stories

Delves into the life and worldview of this environmental champion and his daring life of action on behalf of the earth.

Exploring the Wildwoods of Saskatoon:

The Ecology of a Planted Forest

Afforestation plays a vital role in preserving natural habitats, taking action on climate change, and promoting health and well-being.

A Heritage Documentary

Guided Tours

Free guided tours of the afforestation areas are available upon request, as scheduling permits.

Richard St. Barbe Baker

Learning about the fascinating life story of the pioneering Global Conservationist and his efforts to plant billions of trees worldwide inspires and educates us on the impact one person can have on the environment and the importance of preserving our planet for future generations.

Prairie Forest Guide

Self guided GPS smart phone tour
pfg.friendsareas.ca

Celebrate Saskatoon's hidden gems.

At the heart of our environmental education and preservation efforts are Richard St. Barbe Baker Afforestation Area and George Genereux Urban Regional Park. They are not only beautiful natural areas for health and wellness but also crucial in mitigating climate change and preserving biodiversity. A positive impact for sustainability in our community.

The Mission of the Friends of the Saskatoon Afforestation Areas

We work to protect Saskatoon's two heritage afforestation areas. The largest afforestation area (132 ha) was planted in 1972 and named after Baker by Saskatoon City Council in 1979. The nearby George Genereux Afforestation Area is 60 hectares.

The rich geological, historical, natural, and cultural heritage of the areas honours our past. As places for hands-on learning about conserving our environmental heritage they ensure our future.
