

## About Us

Friends of the Saskatoon Afforestation Areas Inc. work to protect Saskatoon's two heritage afforestation areas. The largest afforestation area (132 ha) was planted in 1972 and named after Richard St. Barbe Baker first Global Conservationist by Saskatoon City Council in 1979. The nearby George Genereux Afforestation Area is 60 hectares.

## Afforestation Story

The rich geological, historical, natural, and cultural heritage of the areas honours our past. As places for hands-on learning about conserving our environmental heritage they ensure our future.
