## **Local Community Marketer – Sutton and Morden**

[Library of Things](#) is a community-powered social enterprise that helps people save money and reduce waste by affordably renting out useful items like drills, sound systems and sewing machines from local community spaces. It also helps people share practical skills like DIY and repair with others in their neighbourhood.

We're a friendly bunch, passionate about our mission. We're guided by our values of being regenerative in the communities we're in and to the planet we're on; balanced in creating a fair exchange for everyone involved; entrepreneurial by testing ideas and learning quickly; transparent with our intentions; borrower-focused to create the best experience possible; and keeping things joyful and not too serious!

Join our small but friendly marketing team as we open more locations across London and work to make them busy.

### **Sutton Library of Things**

Sutton Library of Things is opening in July 2022 following demand from across the community. This project is supported by Sutton Council and will be located in Sutton Central Library.
