

Victory Myanmar Group is the Distiller of largest selling Rum "The Mandalay Rum or Mandalay Spirit". It provides services in Myanmar and Singapore. It was established in 1886 and the distillery is located in Myanmar (Burma). It produces high quality products to meet customer requirements. Victory Myanmar Group aims at establishing the brand both locally and internationally.

Mandalay Rum, established during the colonial era, was created through association between the people of Mandalay and the expert rum blenders from Caribbean brought in by the British. Their attempt conceived a unique rum that marries global craftsmanship with a distinct Myanmar flair. In modern times, Mandalay Rum is produced by a privately owned company, Victory Myanmar Group, which preserves the age-old manufacturing processes to preserve the unique flavours of its older products while offering new items with an innovative taste.

Being a pioneer in using casks made from original Yamane Wood helps derive its flavor profile that is distinct from other rums in the market. Yamane Wood imparts well-rounded flavors and a smooth finish that embody the essence of Myanmar, making it a truly unmatched experience that cannot be found anywhere else. The age-old process of double blending and aging, which has remained unchanged since the distillery's beginning, further enhances the character of Mandalay Rum. There are three types of Mandalay Rum:
