## How did they do it?

Coronavirus does not exist. No “virus” has ever been isolated and there is no scientific evidence to prove that a “virus” named Coronavirus is causing Covid-19. Now let’s examine the evidence.

## UK Gov

Through an FOI (Freedom of Information) request, Gemma O’Doherty, an Investigative Journalist in Ireland, obtained documented proof from the Department of Health on November 4th, which states that the UK Government has no evidence whatsoever that a “virus” called Coronavirus exists. O’Doherty said this is “The greatest fraud perpetrated on humanity”.

## CDC

Effective August 13th, 2020, the Center For Disease Control (CDC) which is a leading world health organization based in the US, stated on page 39 of their report under the heading Analytical Performance: “no quantified virus isolates of the 2019-nCoV are currently available”.

## **THE SMOKING GUN: WHERE IS THE CORONAVIRUS? THE CDC SAYS IT ISN'T AVAILABLE.**

The CDC document is titled, “CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel.” It is dated July 13, 2020.

**“BURIED DEEP IN THE DOCUMENT, ON PAGE 39, IN A SECTION TITLED, “PERFORMANCE CHARACTERISTICS,” WE HAVE THIS: “SINCE NO QUANTIFIED VIRUS ISOLATES OF THE 2019-NCOV ARE CURRENTLY AVAILABLE, ASSAYS [DIAGNOSTIC TESTS] DESIGNED FOR DETECTION OF THE 2019-NCOV RNA WERE TESTED WITH CHARACTERIZED STOCKS OF IN VITRO TRANSCRIBED FULL LENGTH RNA...” THE KEY PHRASE THERE IS: “SINCE NO QUANTIFIED VIRUS ISOLATES OF THE 2019-NCOV ARE CURRENTLY AVAILABLE...” EVERY OBJECT THAT EXISTS CAN BE QUANTIFIED, WHICH IS TO SAY, MEASURED. THE USE OF THE TERM “QUANTIFIED” IN THAT PHRASE MEANS: THE CDC HAS NO MEASURABLE AMOUNT OF THE VIRUS, BECAUSE IT IS UNAVAILABLE. THE CDC HAS NO VIRUS. A FURTHER TIP-OFF IS THE USE OF THE WORD ‘ISOLATES.’ THIS MEANS NO ISOLATED VIRUS IS AVAILABLE. ANOTHER WAY TO PUT IT: NO ONE HAS AN ISOLATED SPECIMEN OF THE COVID-19 VIRUS. NO ONE HAS ISOLATED THE COVID-19 VIRUS. THEREFORE, NO ONE HAS PROVED THAT IT EXISTS. AS IF THIS WERE NOT ENOUGH OF A REVELATION TO SHOCK THE WORLD, THE CDC GOES ON TO SAY THEY ARE PRESENTING A DIAGNOSTIC PCR TEST TO DETECT THE VIRUS-THAT-HASN’T-BEEN-ISOLATED...AND THE TEST IS LOOKING FOR RNA WHICH IS PRESUMED TO COME FROM THE VIRUS THAT HASN’T BEEN PROVED TO EXIST.” ~ Jon Rappaport**

This CDC document confirms Principia Scientific International’s claims that there has NEVER been any successful laboratory test to isolate and confirm the existence of the SARS-COV2 virus, alleged to have caused the COVID19 pandemic. In effect, science tells us there is NO virus! ONE HAS AN ISOLATED SPECIMEN OF THE COVID19 VIRUS. NO ONE HAS ISOLATED SARSCoV2. THEREFORE, NO ONE HAS PROVED THAT IT EXISTS.

***Please see: NO ONE HAS PROVED THAT COVID19 EXISTS – A collection of the evidence.***

For further review, here is the CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel dated July 13, 2020. Page 39 from the fda.gov website:

- Authorized laboratories will have a process in place for reporting test results to healthcare providers and relevant public health authorities, as appropriate.
- Authorized laboratories will collect information on the performance of the test and report to DMD/OHT7-OIR/OPEQ/CDRH (via email: CDRH-EUA-Reporting@fda.hhs.gov) and CDC ([respvirus@cdc.gov](mailto:respvirus@cdc.gov)) any suspected occurrence of false-positive or false-negative results and significant deviations from the established performance characteristics of the test of which they become aware.
- Authorized laboratories will report adverse events, including problems with test performance or results, to MedWatch by submitting the online FDA Form 3500 (<https://www.accessdata.fda.gov/scripts/medwatch/index.cfm?action=reporting.home>) or by calling 1-800-FDA-1088
- All laboratory personnel using the test must be appropriately trained in RT-PCR techniques and use appropriate laboratory and personal protective equipment when handling this kit and use the test in accordance with the authorized labeling.
- CDC, IRR, manufacturers and distributors of commercial materials identified as acceptable on the CDC website, and authorized laboratories will ensure that any records associated with this EUA are maintained until otherwise notified by FDA. Such records will be made available to FDA for inspection upon request.

**Performance Characteristics**

**Analytical Performance:**

*Limit of Detection (LoD):*

LoD studies determine the lowest detectable concentration of 2019-nCoV at which approximately 95% of all (true positive) replicates test positive. The LoD was determined by limiting dilution studies using characterized samples.

The analytical sensitivity of the rRT-PCR assays contained in the CDC 2019 Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel were determined in Limit of Detection studies. Since no quantified virus isolates of the 2019-nCoV are currently available, assays designed for detection of the 2019-nCoV RNA were tested with characterized stocks of in vitro transcribed full length RNA (N gene; GenBank accession: MN908947.2) of known titer (RNA copies/ $\mu$ L) spiked into a diluent consisting of a suspension of human A549 cells and viral transport medium (VTM) to mimic clinical specimen. Samples were extracted using the QIAGEN EZ1 Advanced XL instrument and EZ1 DSP Virus Kit (Cat# 62724) and manually with the QIAGEN DSP Viral RNA Mini Kit (Cat# 61904). Real-Time RT-PCR assays were performed using the ThermoFisher Scientific TaqPath™ 1-Step RT-qPCR Master Mix, CG (Cat# A15299) on the Applied Biosystems™ 7500 Fast Dx Real-Time PCR Instrument according to the CDC 2019-nCoV Real-Time RT-PCR Diagnostic Panel instructions for use.

A preliminary LoD for each assay was determined testing triplicate samples of RNA purified using each extraction method. The approximate LoD was identified by extracting and testing 10-fold serial dilutions of characterized stocks of in vitro transcribed full-length RNA. A confirmation of the LoD was determined using 3-fold serial dilution RNA samples with 20 extracted replicates. The LoD was determined as the lowest concentration where  $\geq 95\%$  (19/20) of the replicates were positive.

Tilbrook's Legal Challenge to 'Covid-Science in the UK, established that The Coronavirus Act 2020 is *null and void* on November 20th, 2020. There are many reasons for this, the main one being that S1(1) of the Act defines 'coronavirus' as being 'covid-19' or its other name 'SARS Cov-2'. **However, by virtue of the fact that it is not legally, medically or scientifically recognised as a disease or virus it cannot be legislated against, and this makes the whole Act null and void.** In addition, all legislation by any government based on the pseudoscience of a non-existent virus is null and void. People are not required to follow draconian orders which violate the tenants of their basic human rights, like wearing masks, mandatory medical injections and travel restrictions.

The legal group goes on to explain that **'covid-19' has not been subjected to the 130 year established legal, medical and scientific procedure that recognises if it is actually a disease or virus or not, which is known as the Koch Postulates.** This involves purifying and isolating the 'disease' or 'virus' and proving that it actually causes the illness that it is claimed that it does. 1.) No virus purified 2.) No Koch's Postulates. Corona "virus" *does not exist*.

This PMC report states: "The association between 2019-nCoV and the disease has not been verified by animal experiments to fulfill Koch's postulates to establish a causative relationship between a microorganism & a disease." *Please see: Study of the genome sequence, the basis for subsequent studies.*

Official responses to FOIA from multiple global health authorities admitting that isolation and purification of SARSCoV2 samples has never happened can be viewed [\*here\*](#).

Another collection of proof that SARSCoV2 has never been correctly isolated & purified can be viewed [\*here\*](#).

To learn more about Koch Postulates please watch: [Dr. Andy Kaufman Details Exactly Why Exosomes Are Being Mistaken For Covid-19 Virus](#).

On November 6th, 2020, the Concerned Lawyers Network wrote an [open letter](#) to PM Scott Morison to request a review and wind back of measures taken by the Victorian and Australian Governments which were based on the premise of a Covid19 pandemic existing and/or continuing, leading to declared states of emergency and stated that "Coronavirus is another cold/flu" and "there is no pandemic."

On November 2nd, New South Wales (NSW) Police blew the whistle on the Corona "virus" deception in a powerfully written [open letter](#) reported by Cairns News. "Written by a senior constable from the Coffs/Clarence Highway Patrol in NSW and signed by colleagues, the open letter is addressed to NSW Commissioner of Police Michael Fuller and is one of the

best rebuttals of the COVID narrative of fear and control written anywhere, noting false predictions of its severity, false and misleading statistics, flaws in testing and serious questions around the virus itself.”

## **Big Pharma**

On November 5th, a Big Pharma Whistleblower in the UK came forward with documents announcing on Mark Devlin’s show that: A. No virus exists and no virus has been proven to exist. B. Cause of the virus does not exist. C. Not one health safety check has ever been done to prove the safety of pharmaceutical vaccines.

On November 4th, the CDC updated their latest Corona report which aired in mainstream news stating that “Covid-19 is rarely the actual cause of death among Coronavirus patients.” The CDC also admitted that *only 6%* of deaths recorded as Covid-19 deaths were actually from Covid-19. Of the 220,000 deaths attributed to Coronavirus, only 13,200 were actual Covid-19 deaths. 88, 208 died from pneumonia and influenza-related deaths, 17,799 died from chronic respiratory diseases, 26,365 died from adult respiratory distress syndrome, 44,000 patients died from hypertensive diseases, 23,000 from heart disease and the other 28,000 died from cardiac arrest and heart failure. It’s fair to say these deaths were caused by corporate media quite literally scaring people to death.

## **PCR testing is a fraud**

In this extremely important interview below, with German/American Lawyer Reiner Füllmich, he discusses how Crimes Against Humanity are being perpetrated against the masses and he reveals how the fraudulent PCR Tests has become the “gold standard” in testing for Covid-19 through the elite’s treacherous manipulation of governments.

Füllmich also reveals that his team has filed a lawsuit against the German government and intend to file lawsuits against other governments for this incredible worldwide hoax which has cost thousands of lives and livelihoods already.

We Are Being Lied To Here's How... The PCR test was not designed to isolate viral infections. In October, Spiro gave an excellent report on how we are being scammed with the PCR tests. Included in his report are statements from the inventor of the PCR test, American Biochemist and winner of the Nobel Peace Prize, Kary Mullis, admitting the PCR test cannot differentiate between a live virus or a dead virus. Essentially, anybody could test positive for "Coronavirus."

In his own words, Mullis tells us the PCR test is not a diagnostic and discusses its vast limitations for diagnosis. If Mullis was alive today there would be no pandemic:

## **Portugal**

A Portuguese court just ruled the PCR tests as unreliable and unlawful on November 18th. This is HUGE! The court stated, the test's reliability depends on the number of cycles used and the viral load present.

*“if someone is tested by PCR as positive when a threshold of 35 cycles or higher is used (as is the rule in most laboratories in Europe and the US), the probability that said person is infected is less than 3%, and the probability that said result is a false positive is 97%.”*

## **Italy**

ITALY: CONFIRMED BY ITALIAN HEALTH SERVICE on November 25th: False positives from Covid19 tests diagnostics are 95%. Legal cases have been started against PCR testing under charges of fraud to procure public funding, false alarm, ideological falsehood, and manslaughter.

## **Tansania**

All the way back in May 2020, the President of Tansania, John Magufuli, denounced Covid PCR tests when he exposed that a goat and a fruit tested positive for Coronavirus. You can watch his press release with English subtitles *here*.

## **CDC**

In August, the CDC released a report admitting that PCR tests produce 94% false positives.

In September the CDC admitted there is no proof that Covid-19 is an airborne virus. They've essentially been misleading the public all along. "This was an error on the part of our agency and I apologize on behalf of the CDC," said John Brooks, chief medical officer for the CDC's Covid-19 Emergency Response.

## **Anthony Fauci**

Even Anthony Fauci admitted the PCR test has a fatal flaw.

## **Doctors**

Some Doctors were already speaking out back in March, like Cardiologist Dr Binder, who said "The Corona test is the disease, not the virus." In November Dr Binder discussed how he was arrested by the Swiss Government for speaking the truth about the ineffective PCR tests.

Dr Binder explains the details of this PCR test scam and how people are being killed in this Twitter thread.

In September, Liberty Times and Politics shared a BOBSHELL revealing that WHO Coronavirus PCR Test Primer Sequence is Found in All Human DNA.

World Doctors Alliance stated in October that the PCR test produces 89-94 % false positives and calls this Crimes Against Humanity.

In September, The Bulgarian Pathology Association (PGA) reported that COVID19 PCR Tests are Scientifically Meaningless: "Though the whole world relies on RT-PCR to "diagnose" Sars-Cov-2 infection, the science is clear: they are not fit for purpose."

Global Research published an excellent article about the PCR test scam: The COVID-19 RT-PCR Test: How to Mislead All Humanity. Using a "Test" To Lock Down Society.

Here's another comprehensive media report by the Highwire: PCR Testing Scam – 2nd Wave Hysteria DEBUNKED! Lockdown is what's killing people.

To conclude with, here are a few more important facts from the blog, **NO ONE HAS PROVED THAT COVID19 EXISTS – A collection of the evidence**.

Scientific labs used the RT-PCR test to amplify RNA samples from sick people. They compared results with genome sequence from Wuhan study, Feb 2020. But that study didn't use pure culture or isolate. Oxford confirmed a SARSCoV2 sequence match, however Koch Postulates was not met, not by any lab, anywhere.

It was the same in Australia. The Doherty Institute supposedly isolated the virus, but when tasked with validating tests from China they used a *simulation* because they couldn't find enough patient samples of the virus.

Oxford depended on a shaky foundation when they chose to trust the Chinese study they cited in *this paper*. Did any of them actually read through it to find out how the genome was sequenced?

Somebody did and it was well buried but it's there, from a RT-PCR of a *non isolated DNA fragment*.

The list of studies that depend on making comparisons with the flawed Chinese genomic sequencing study is shocking. Why didn't scientists query the source of the virus? Please see the document *here*.

In November we could see UK and Australian governments were replacing flu deaths with Covid-19 to inflate the numbers.

As of Friday, the lateral flow or rapid tests in Liverpool were used and did 96,000 tests, and found 842 positives, which is 0.8%. They tested 55,000 of the same people in the same area using the PCR test, and found 1700 positive, which is 3%. The media has been silent about this great disparity in testing accuracy: <https://youtu.be/rQODLeJVZrQ>.

And finally, **Dr. Mike Yeadon** a former Vice President and Chief Science Officer for 16 years to the Big Pharma vaccine company Pfizer said the 'Second Wave' is Faked:

*"There is no science to suggest a second wave should happen." The "Big Pharma" insider asserts that false positive results from inherently unreliable COVID tests are being used to manufacture a "second wave" based on "new cases."*
