

**Americans All  
A National  
Multicultural  
Education Program K-12**

This program makes it possible, at last, to bring the saga of the peopling of America to our nation's students. Through a set of carefully researched materials, today's students can share the dramatic experiences of the Native American, African, Asian, Puerto Rican, European, and Hispanic people who historically helped to build and shape this country. And in the process of sharing all Americans' experiences, students will gain a deeper appreciation of our nation's greatest resource — its richly diverse and talented citizenry.
