

Grow fresh,
healthy produce
at home,
year-round!

**RECOMMENDED
CONSUMPTION**

Fill half your plate
with fruits and
vegetables!

Juice Plus+ TOWER GARDEN

KEY FACTS

- » Grow a variety of **fresh, homegrown fruits, vegetables, herbs and flowers**
- » **How does Tower Garden work?** Simply put, it rains inside! The Tower pumps mineral enhanced water to the top, the water trickles down and **provides everything plants need to grow!**
- » Tower Garden uses **aeroponic technology** – which means plants grow without soil or a need to weed
- » Tower Garden is made of **UV-stabilized, BPA-free, high-quality food-grade plastic**, making it compliant with FDA guidelines for food contact

GROWING SYSTEMS:

FLEX: Short for “flexible”, **this larger system offers versatility to grow indoors** (with LED Grow Lights), or outside with the seasons, with options for extension kits to expand growing opportunities.

- » **Size: 3 sq. ft.**, holds 20 gallons
- » Grows **20 fruits, vegetables, and herbs** – even more with extension kits

HOME: **The smaller of the two growing systems**, ideal for indoor or outdoor growing of greens, herbs and smaller fruiting plants is the **perfect addition to any home space.**

- » **Size: 2 sq. ft.**, holds 13 gallons
- » Grows **32 vegetables, herbs and microgreens**

KEY BENEFITS

- » Plants **grow 3 times faster**
- » Increases yields by an average of **30%**
- » Only needs **2–3 sq. ft.** of space
- » Clean, **sustainable** food
- » **Uses as little as 2% of water** as traditional gardening
- » Better tasting & **more nutrient-dense** produce
- » Control of your food & food security
- » **Education resource**
