Americans All program through the MLBPA**

www.americansall.org/node/566416

Americans All is a hybrid charity that raises money for all nonprofits using our revenue-generating, multipurpose storytelling tool.

Most charities request donations but do very little for their sponsors/members. We are different because we provide an optional storytelling tool, have only one level of giving and two separate components, and do not produce, sell, or send out merchandise.

Rather, we offer our members multiple opportunities to benefit themselves and their families when they make their charitable gifts.

Who We Are:

Our 38-year-old nonprofit foundation was previously a supplier of diversity-based social studies resources and teacher training, but the politicization of K-12 school classrooms today has made that goal almost impossible to achieve. Our resources remain online. However, regardless of age, all students and community members can still use our storytelling tool to create annual virtual yearbooks as legacy keepsakes for each class, team, or club they participate in or support.

What We Do:

We have shifted our focus and have created a hybrid charity that helps all nonprofits with an educational or community outreach component as part of their mission to raise money through our revenue-generating, multipurpose storytelling tool. Most traditional charities request donations but do little for their sponsors/members. We are different because we provide an optional storytelling tool, have only one level of giving and two separate components, and do not produce, sell, or send out merchandise. Instead, we offer our members multiple opportunities to benefit themselves and their families when they make their charitable gifts. We also enable businesses and professional service providers to turn a significant portion of their marketing outreach strategy into a charitable gift.

Our Rationale:

Ancestors of all Americans came here from diverse locations, so we all have immigrant roots. These experiences can be shared through stories acknowledging that heritage and culture are rich aspects of personal and group identity. Importantly, our polarized nation needs a vehicle to help reinforce and appreciate the commonalities that unite, rather than divide, the American people, thus promoting understanding, tolerance, and acceptance.

Benefits to the MLBPA and its Members:

- Supports your organization's mission to harness the expertise, influence, and passions of players to create meaningful and sustainable change in the lifelong well-being of others.
- Provides significant annual revenue with minimal administration, which can benefit retired members and their families, support and grow cities that host minor league teams and expand support and development for underserved kids.
- Provides the exposure that enables schools and nonprofits to earn much-needed annual revenue.
- Our storytelling tool helps your organization and its members build a stronger relationship with the public.

Our Business Model Follows the Subscription Model that CVS Created:

CVS is a pharmacy. However, by paying \$4 monthly to their "CarePass" program, its members get 20% off eligible CVS brand products and a \$10 monthly credit to pay for in-store and online products that month. Its members can access the benefits in more than 9,000 stores nationwide.

We are a hybrid charity. Our model is based on CVS's "CarePass" program. We use the same \$4/monthly fee, but to improve its model, we offer a trial period and a much larger base of businesses and professional service providers to get unlimited discounts that month, initially in each of the 30 MLB markets.

Business offer discounts to program members

In addition to providing the MLBPA with significant annual revenue from member subscription fees, the MLBPA gets credit for enabling nonprofits, especially schools, to improve their financial positions. The program also enables individuals (especially students) to create stories and link them to all groups and teams they participate in or support. Members do not need to create a story to join the discount program.

Although the MLBPA can also seek additional revenue by enrolling business partners, it makes sense to allow the nonprofits to use that revenue resource since the exposure created by the MLBPA will simplify this task for them. This will also increase the number of businesses that all individual members can use to gain discounts.

[The program developer selected the “CarePass“ business model for its nationwide success. There is no relationship of any type between CVS and Americans All.]

How Our Program Works:

Our first component, a free lifetime membership in Americans All, enables all community members to publish two 2,000-word stories in English (half the story can be password-protected) and as many as they desire in a foreign language on our Heritage Honor Roll (HHR). Members can enhance stories with images, logos, photos, hyperlinks, and audio-visual media. Stories can be autobiographical or created to honor an admired individual or group, and they can be updated for free anytime; older versions are archived.

To enable an unfinished story to be added to our website, members only need to fill in an honoree* or group name*, date of birth* or formation* (and passing* or disbandment,* if appropriate) and a summary* not to exceed 60 words in our “summary template.” The story can be published by typing “To come” in the “story field.” All stories pass through a profanity filter before being added to our HHR.

Americans All membership also includes our second component—a free, three-month trial subscription to our Social Legacy Network (SLN). This enables members to access discounts on goods and services from our business partners 4

and professional service providers. These organizations determine the type of benefit they offer. Students keep their free SLN subscription until their K-12 class graduates.

Nonprofits get a free, lifetime landing page on our site to briefly describe their entity and to host, if they so choose, stories that appear on our HHR. Our registration template contains a simple way for a nonprofit to remove a story that they feel is inappropriate and does not belong on their landing page. The nonprofit's point of contact can later register them as a member of Americans All so they can create and publish stories on the HHR.

Individuals can post their stories on as many business and nonprofit landing pages as they desire. For example, sports team members can post their stories on the landing page of any team they have played on or support and on any landing page that honors annual accomplishments if they are included.

Businesses and professional service providers pay a \$49 membership fee every six months to create a landing page with information on their goods and services to help expand traffic. This page can be updated daily, and the type of discount (or benefit) they offer is solely at their discretion. They can change their sponsored nonprofit each time they pay their fee and encourage their employees, clients, and customers to post their HHR stories on this page to help create or expand their affinity group. Their point of contact can later register them as a member of Americans All so they can create and publish stories on the HHR.

Implementation Strategy:

We will first introduce the program to MLB cities, then to cities that host minor league teams, and follow up with schools and other nonprofits. We followed the structure of the CVS plan, which has more than 9,000 outlets nationwide. We can release the program nationally because it is virtual, and our current website will serve us until the new site is created. We bring experience, expertise, and credibility, and MLB provides the national exposure that will help ensure success. Continuity is guaranteed since MLB will be the program's successor.

Benefits of Storytelling:

Extensive research confirms that life stories are central to people's sense of self and social world. It also asserts that intergenerational knowledge of one's family history is associated with positive mental health, wholeness, well-being, and a sense of belonging. When people belong, they feel emotionally connected and welcomed.

Businesses can benefit because stories directly impact emotions, and emotions rather than data change behavior and frequently determine buying decisions. Good storytelling builds trust and connections. It influences people to believe in the products they depend upon daily and encourages them to become customers and clients. Most businesses spend about 5 percent of their sales on marketing programs, and our program offers them a way to get a higher return on investment on a fraction of that expenditure.

Implementation Strategy

Americans All originally provided diversity-based, nonpartisan supplemental social studies resources and teacher training to high schools, which adopted new textbooks on a seven-year cycle. When we came to market, it was the year for social studies, and at that time, major publishers did not have social studies textbooks that contained the history of all groups that came to and moved through our nation.

As a result, Houghton Mifflin asked to help us distribute our materials. It took them about 18 months to update their own texts, so they dropped us. However, we sold our materials to more than 2,000 schools and libraries nationwide during that period.

We could not compete with the major publishers, and schools began focusing on STEM and reducing the time spent teaching social studies and civics. We spent the following decades trying to find a fit for our materials and storytelling tool.

Through trial and error, we learned that implementation on a state level would not work since our nation has become politically polarized. In addition, despite our ability to generate revenue, we advocate for diversity, which would not work for all areas. We contacted organizations in [Howard County, MD](#), for about a year, but replicating that structure would have been time-consuming and would not have worked for a nationwide rollout. That led us to replicate the CVS model and follow the successful strategies I had used in the past.

As project manager for the 10-volume [International Library of Afro-American Life and History](#), I released the set nationwide through the companies and stockholders of Publishers Company (a publicly traded company) and its subsidiary, Books, Inc. When we released the original Americans All social studies resources program, it was done through the annual catalog and the national sales force of [Houghton Mifflin](#), thus providing us with exposure in multiple areas. CVS uses this same plan because it has more than 9,000 outlets nationwide.

We could immediately operate in various demographics by partnering with a major sports entity with name recognition. We can support this with a comprehensive social media program. In addition, each team can develop the outreach that best appeals to its audience. We will first introduce the program to MLB cities, then to cities that host minor league teams, and follow up with schools and other nonprofits, which appear as [target markets](#) for our business plan. This nationwide release is simplified because our program is virtual, and our current website will serve us until the new site is finished. It needs the financial modules, and we have time because all members get a trial period. We bring experience, expertise, and credibility, and MLB provides the national exposure that will help ensure success. Continuity is guaranteed since MLB will be the program's successor.

Who We Are:

Our 38-year-old nonprofit foundation was previously a supplier of diversity-based social studies resources and teacher training, but the politicization of K-12 school classrooms today has made that goal almost impossible to achieve. However, all students, regardless of age, can still use our storytelling tool to create annual virtual yearbooks as legacy keepsakes for each class, team, or club in which they participate.

What We Do:

We have shifted our focus and, with support and direction from many organizations, have created a hybrid charity that helps all nonprofits that have an educational or community outreach component as part of their mission (regardless of how they are organized) raise money through the use of our revenue-generating, multipurpose storytelling tool. Most traditional charities request donations but do little for their sponsors/members. We are different because we provide an optional storytelling tool, have only one level of giving and two separate components, and do not produce, sell, or send out merchandise. Instead, we offer our members multiple opportunities to benefit themselves and their families when they make their charitable gifts. We also enable businesses and professional service providers to turn a significant portion of their marketing outreach strategy into a charitable gift.

Our Rationale:

Ancestors of all Americans came here from diverse locations, so we all have immigrant roots. These experiences can be shared through stories acknowledging that heritage and culture are rich aspects of personal and group identity. Importantly, our polarized nation needs a vehicle to help reinforce and appreciate the commonalities that unite, rather than divide, the American people, thus promoting understanding, tolerance, and acceptance.

Our Business Model:

Our model is based on CVS's "CarePass" program, where members pay \$4 monthly without a trial period to receive a \$10 reward to pay for many in-store or online items that month. We use the same \$4/monthly fee, but to improve their model, we offer a trial period and a much larger base of businesses to get unlimited discounts that month.

Benefits to the College or University:

- Provides significant unrestricted annual revenue requiring minimal staff time and, at the same time, helps students and faculty increase a part of their purchasing power.
- Enables students to increase their written communication skills and an opportunity to see their work published on a national website.
- Provides another way to reconnect with alumni so they can share their stories nationally and promote the school.
- Helps strengthen school and community relations and support local businesses.

How We Distribute Revenue:

Our distribution is based on gross revenue received after the free 3-month trial period from individual subscription fees and business and professional service provider membership fees. Of that, 77 percent is donated to a nonprofit specified by donors, and 3 percent goes to the nonprofit's school, which helps ensure the school's participation and support. If the nonprofit is not registered with us, those funds go to its college or university.

How Our Program Works:

Our first component, a free lifetime membership in Americans All (AA), enables all community members to publish two 2,000-word stories in English (half the story can be password-protected) and as many as they desire in a foreign language on our Heritage Honor Roll (HHR). Members can enhance stories with images, logos, photos, hyperlinks, and audio-visual media. Stories can be autobiographical or created to honor an admired individual or group, and they can be updated for free anytime; older versions are archived.

To enable an unfinished story to be added to our website, members only need to fill in an honoree* or group name*, date of birth* or formation* (and passing* or disbandment*, if appropriate) and a summary* not to exceed 60 words in our “summary template.” The story can be published by typing “To come” in the “story field.” All stories pass through a profanity filter before being added to our HHR.

AA membership also includes our second component—a free, three-month trial subscription to our Social Legacy Network (SLN). This enables members to access discounts on goods and services from our business partners and professional service providers. Members do not have to create a story to subscribe to the SLN.

Nonprofits get a free, lifetime landing page on our site to briefly describe their entity and to host, if they so choose, stories that appear on our HHR. Our registration template contains a simple way for a nonprofit to remove a story that they feel is inappropriate and does not belong on their landing page. The nonprofit’s point of contact can later register them as a member of Americans All so they can create and publish stories on the HHR.

Individuals can post their stories on as many business and nonprofit landing pages as they desire. For example, students can post their stories on the landing page of any team or club in which they participate or on a page that honors annual accomplishments if they are included.

Businesses and professional service providers pay a \$49 membership fee every six months to create a landing page with information on their goods and services to help to expand traffic. This page can be updated daily, and the type of discount (or benefit) they offer is solely at their discretion. They can change their sponsored nonprofit each time they pay their fee and can encourage their employees, clients, and customers to post their HHR stories on this page to help create or expand their own affinity group. Their point of contact can later register them as a member of Americans All so they can create and publish a story on the HHR.

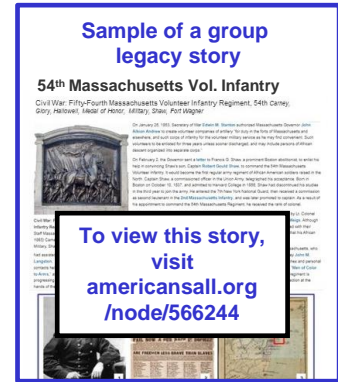

Benefits of Storytelling:

Extensive research confirms that life stories are central to people’s sense of self and social world. It also asserts that intergenerational knowledge of one’s family history is associated with positive mental health, wholeness, well-being, and a sense of belonging. When people belong, they feel emotionally connected and welcomed.

Businesses can benefit because stories directly impact emotions, and emotions rather than data change behavior and frequently determine buying decisions. Good storytelling builds trust and connections. It influences people to believe in the products they depend upon daily and encourages them to become customers and clients. Most businesses spend about 5 percent of their sales on marketing programs, and our program offers them a way to get a higher return on investment on a fraction of that expenditure.

Who We Are:

Our 38-year-old nonprofit foundation was previously a supplier of diversity-based social studies resources and teacher training, but the politicization of K-12 school classrooms today has made that goal almost impossible to achieve. Our resources are still online. However, all students, regardless of age, can still use our storytelling tool to create annual virtual yearbooks as legacy keepsakes for each class, team, or club in which they participate.

What We Do:

We have shifted our focus and have created a hybrid charity that helps all nonprofits that have an educational or community outreach component as part of their mission (regardless of how they are organized) raise money through the use of our revenue-generating, multipurpose storytelling tool. Most traditional charities request donations but do little for their sponsors/members. We are different because we provide an optional storytelling tool, have only one level of giving and two separate components, and do not produce, sell, or send out merchandise. Instead, we offer our members multiple opportunities to benefit themselves and their families when they make their charitable gifts. We also enable businesses and professional service providers to turn a significant portion of their marketing outreach strategy into a charitable gift.

Our Rationale:

Ancestors of all Americans came here from diverse locations, so we all have immigrant roots. These experiences can be shared through stories acknowledging that heritage and culture are rich aspects of personal and group identity. Importantly, our polarized nation needs a vehicle to help reinforce and appreciate the commonalities that unite, rather than divide, the American people, thus promoting understanding, tolerance, and acceptance.

Our Business Model:

Our model is based on CVS's "CarePass" program, where members pay \$4 monthly without a trial period to receive a \$10 reward to pay for many in-store or online items that month. We use the same \$4/monthly fee, but to improve their model, we offer a trial period and a much larger base of businesses to get unlimited discounts that month.

Benefits to the Nonprofit:

- Community members want to find discounts when they shop. If young students can shop independently, they are included in this group.
- All nonprofits need an unrestricted stream of annual revenue requiring minimal administrative staff.
- Businesses and professional service providers need to expand traffic and look for affordable, effective and appropriate ways to do so.
- All community members can benefit from having an easily accessible "virtual yearbook" to share and serve as a keepsake for each organization, team or club in which they participate.

How We Distribute Revenue:

Our distribution is based on gross revenue received after the free 3-month trial period from individual subscription fees and business and professional service provider membership fees. Of that, 77 percent is donated to a nonprofit

specified by donors (can be a division of the nonprofit), and 3 percent goes to the nonprofit. Those funds go to the nonprofit if the division is not registered with us.

How Our Program Works:

Our first component, a free lifetime membership in Americans All (AA), enables all community members to publish two 2,000-word stories in English (half the story can be password-protected) and as many as they desire in a foreign language on our Heritage Honor Roll (HHR). Members can enhance stories with images, logos, photos, hyperlinks, and audio-visual media. Stories can be autobiographical or created to honor an admired individual or group, and they can be updated for free anytime; older versions are archived. To enable an unfinished story to be added to our website, members only need to fill in an honoree* or group name*, date of birth* or formation* (and passing* or disbandment,* if appropriate) and a summary* not to exceed 60 words in our “summary template.” The story can be published by typing “To come” in the “story field.” All stories pass through a profanity filter before being added to our HHR.

AA membership also includes our second component—a free, three-month trial subscription to our Social Legacy Network (SLN). This enables members to access our business partner's and professional service provider's discounts on goods and services. The organizations determine the type of benefit they offer. Students keep their free SLN subscription until their K-12 class graduates. Members do not have to create a story to subscribe to the SLN.

Nonprofits get a free, lifetime landing page on our site to briefly describe their entity and to host, if they so choose, stories that appear on our HHR. Our registration template contains a simple way for a nonprofit to remove a story that they feel is inappropriate and does not belong on their landing page. The nonprofit's point of contact can later register them as a member of Americans All so they can create and publish stories on the HHR.

Individuals can post their stories on as many business and nonprofit landing pages as they desire. For example, sports team members can post their stories on the landing page of any team they have played on and/or on a page that honors annual accomplishments if they are included.

Businesses and professional service providers pay a \$49 membership fee every six months to create a landing page with information on their goods and services to help expand traffic. This page can be updated daily, and the type of discount (or benefit) they offer is solely at their discretion. They can change their sponsored nonprofit each time they pay their fee and encourage their employees, clients, and customers to post their HHR stories on this page to help create or expand their affinity group. Their point of contact can later register them as a member of Americans All so they can create and publish stories on the HHR.

Competition

Although storytelling and discount coupon programs exist, no organization offers the same comprehensive benefits as *Americans All*. Lifetime membership is free, the general public can view stories, and a revenue-generating feature is offered.

Some organizations enable their members to post a story online, but they must pay a fee, and only their members can view these stories. None offer a revenue-generating feature.

Ancestry and *MyHeritage* are genealogy platforms that create family trees and DNA matches. They offer story options, but only as a Premium benefit. Legacy Stories has a 6-month free trial and an annual fee of \$99 for the basic plan. Storyworth helps individuals combine short stories into a hardcover book costing \$99 per year without exposure. None offer a revenue-generating feature.

Discount coupons are available from many sources but cannot be updated daily as businesses try to effectively target specific Zip Codes. None of these groups donates a major proportion of their revenue to schools or other nonprofits.

Revenue Distribution to Nonprofits (and Schools)

To be eligible to receive funds, all nonprofits need to first [register](#) for AA to get their 6-digit identification code. We provide [templates](#) and [tutorials](#) to simplify the process. Nonprofits can create and publish their Heritage Honor story and Legacy Partner landing page(s) at any time. We recommend that the much shorter Legacy Partner page be created first. Schools have the option of not allowing stories to be posted on that page(s).

The easiest way for a nonprofit to receive funds is to use an existing checking account or to create a new one for this purpose. If schools cannot receive funds directly, they can appoint an agent to act on their behalf. Nonprofits will be provided a form from a secure third-party fiduciary to create a pathway (an ACH transfer) to receive funds directly deposited from Americans All into the nonprofit's checking account. The pathway account number will be the nonprofit's 6-digit identification code, plus a dash and its 5-digit Zip Code. For security reasons, only the third-party fiduciary will know the name of the nonprofit's bank and its ACH account number; the nonprofit's banking data will not be shared with Americans All.

All funds that the program receives from SLN subscriptions and BLP sponsorships will be electronically deposited into a master checking account. Every month, an electronically created invoice will be generated on behalf of the nonprofit to release the funds from this master checking account. The funds will be transferred to the nonprofit's checking account using the ACH transfer.

Americans All will also create a partnership entity in each consolidated area to receive the revenue not earmarked for a specific nonprofit. For example, if a county registers to support all of its schools, it will be the consolidated entity for all participating schools. That entity will completely control how the funds are used. Each partnership entity will have a unique identifier—6 digits plus its [two-letter state abbreviation](#). This identifier will also enable a SLN subscriber and a BLP member to select a county to receive subscription and sponsorship funds absent a specific nonprofit to support. We will link each nonprofit's Zip Code to a county account.

To facilitate revenue distribution to each county, we will create a master spreadsheet each jurisdiction can access. The spreadsheet will show the monthly activity of each nonprofit—identified by its code—and its cumulative totals. The spreadsheet will also show each jurisdiction's total number of SLN subscriptions and BLP sponsorships.

Finally, members will never be automatically billed for the optional SLN fee after their free trial and can cancel their subscription at any time once they subscribe. No credit card is required to be put on file for the free trial. In addition, we do not store credit card data, share or sell our member's contact information, allow pop-up ads, or use any form of AI.

How to create a legacy story for an individual for the Americans All Heritage Honor Roll

You must first register to become a free lifetime member of Americans All to access all program benefits, including the ability to create and publish a legacy story. We have created tutorials to help guide you through each step. For your convenience, links to these tutorials are included at the end of this document. In addition, your membership includes a free, 3-month trial in our Social Legacy Network, which enables you to receive discounts on goods and services from our business and professional service partners. You do not need to create a story to join the Social Legacy Network.

Step 1: Visit www.americansall.org and click on the “**Create New User Account**” tab at the top right of the home page to register for Americans All.

"Her name is Ester Baumgartner. Do you know her?" Allan Kullen had posed the question in a broken mixture of Hebrew and English to whoever would listen and could understand him. Allan had met Ester while on an archaeological dig at [Masada](#) in Negev, Israel. All he knew by the time they parted ways was her name and the fact that she was staying in Tel Aviv. So, after finishing his work, he decided he would try to find her. He hitchhiked his way to Tel Aviv and, despite all odds, found her. It was to play an important role in his life.

Allan was born in Washington, DC, on February 20, 1942, to Eunice (Stotland) and Sol Kullen, both originally from Baltimore, MD. His sister, Marian, was born two years later. He grew up in the DC metropolitan area. His father had built a successful career in the printing industry so, in 1959 after a very uneventful four years culminating in his high school graduation, Allan chose to attend the School of Printing Management at [Carnegie Institute of Technology](#) (CIT) in Pittsburgh, PA.

Americans All features photographs and texts on the contributions that immigrants made to the nation's development when they come through Ellis Island. At the same time, he was printing for the [Coordinating Committee for Ellis Island](#), a nonprofit group focused on the same topic. Civil War: Fifty-Fourth Massachusetts Volunteer Infantry Regiment, 54th [Americans All Editorial Staff Massachusetts] (March 13, 1863 - August 4, 1865) Carney, Glory, Hallowell, Medal of Honor. Military, Shaw, Fort Wagner

On January 28, 1863, Secretary of War Edwin M. Stanton authorized Massachusetts Governor John Albin Andrew to create volunteer companies of artillery "for duty in the forts of Massachusetts and elsewhere, and such corps of infantry for the volunteer military service as he may find convenient. Such volunteers to be enlisted in the regular army, and to be subject to the same discipline as persons of African descent organized into regular regiments."

On February 2, the Governor helped in convincing Shaw to help in convincing the 54th Massachusetts Volunteer Infantry. It was in Northampton, Massachusetts, that Shaw met with the abolitionist, to enlist his help in convincing the 54th Massachusetts Volunteer Infantry. It was in Northampton, Massachusetts, that Shaw met with the abolitionist, to enlist his help in convincing the 54th Massachusetts Volunteer Infantry. It was in Northampton, Massachusetts, that Shaw met with the abolitionist, to enlist his help in convincing the 54th Massachusetts Volunteer Infantry.

Once his appointment was confirmed, Shaw began to recruit his soldiers. He was assisted by Lt. Colonel Norwood Hallowell (see his story below) and the regiment became their training at Camp Meigs. Although Shaw was not convinced about the fighting qualities of this new regiment, he was impressed with their dedication and devotion to the task. Throughout his career, he devoted himself to proving that his African American soldiers could fight just as well as any white soldiers.

Governor Andrew enlisted the support of Mayor George Luther Stearns of Medford, Massachusetts, who had assisted abolitionist John Brown in his plan for giving freedom to the slaves. Stearns organized a committee for the task, and it included attorney John M. Langston, businessman, lawyer and shoe merchant O. S. B. Wall and abolitionist and statesman Frederick Douglass. Their appearances, speeches and personal contacts help increase the enlistments of black men for the Massachusetts cause. On March 2, 1863, Douglass issued his famous announcement, "Men of Color to Arms," and urgently requested that this enlistment opportunity be accepted. On June 20, 1863, Mayor Stearns wrote to Secretary Stanton, "My regiment is progressing handsomely, and black men begin to understand they gain nothing by standing off, but if they were to gain their rights and secure protection at the hands of the government, they must rally at its call."

Howard County Historical Society

Education Organization

www.americansall.org/node/564990

Founded in 1958, the Howard County Historical Society is primary private repository of historical records and artifacts related to Howard County's rich history, the Howard County Historical Society provides access to materials that aid in historical exploration, research and discovery for all ages and cultural groups.

Throughout the year, the Howard County Historical Society presents a wide variety of engaging public programs, concerts, lectures, and other activities. The Society also welcomes school groups, scouts, home schoolers, adult groups, and the public to participate through field trips and outreach programs.

The Museum of Howard County (8328 Court Avenue) is housed in the former First Presbyterian Church which was generously donated to the Society in 1959 by Mrs. Alda Hopkins Clark in memory of her late husband, Judge James Clark, Sr. The Clark Family was instrumental in founding the Historical Society.

Located next to the Court House in Ellicott City, the original church was a modest building constructed in 1837 that collapsed during renovations in 1894. Rebuilt later that same year, the current Gothic-style structure with its soaring 100-foot bell tower, steeply pitched roof and stained and leaded glass windows was designed by George Archer and constructed by Frederick A. Wayland. Along with an extensive collection of fascinating artifacts, textiles, furniture and memorabilia, the Museum is home to a refurbished 1855 organ built by the A.B Felgemacher Organ Company of Erie, PA.

The Howard County Historical Society Archives and Research Library were originally kept in the Museum and then moved to the Ellicott's Mills Quaker School, now known as the Weir Building, in 1988. In the fall of 2011, the Society moved its treasure trove of historical maps, deeds and property records, marriage licenses, voter records, slave manumission records and oral histories as well as over 4,000 historical photographs, local 4-H documents, business receipts, and many rare and one-of-a-kind private documents to the Charles E. Miller Branch Library and Historical Center on Frederick Road in Ellicott City.

Sample Americans All Website Tutorials

Americans All members will find it easy to start creating their life stories. Our template only requires individuals to fill in their names, pertinent dates, and a summary that does not exceed 60 words. Additional story text, hyperlinks, and photographs can be added over time. The following tutorials will help you create and publish your legacy story. You can update your story anytime, for free; all previous versions are archived.

There are four major roles that Americans All members can have. A person (an individual or a group for which he/she is affiliated), a nonprofit organization, a school or education (a specific form of a nonprofit organization), and a business or professional service provider (and their respective offices and locations). A person can also be an agent (or Point of Contact) for a nonprofit or business member but must register separately using that organization's email address. Registration tutorials for each of the roles are below.

For individuals are used to using website templates, a shorter version of each tutorial has been provided.

Benefits of Storytelling to Students

Our unique storytelling tool offers many benefits for students participating in non-curriculum school activities. It can also make a positive difference in their personal lives.

- All stories begin at birth, and *legacies* are built each time a personal, academic, or professional milestone is achieved. Every student has important experiences and lessons learned to share with family, friends, and future generations. Creating and publishing a [story](#) about themselves (or their families) helps students develop critical thinking, communicating, researching, and, especially, writing—skills needed to help ensure their success in postsecondary education and/or the workforce. This is an ideal opportunity for student-athletes to showcase their talents to post-secondary institutions.
- Americans All enables each school club or team to set up its own free Legacy Partner landing page to host stories created by its members on our Heritage Honor Roll. Each of these landing pages can become a virtual annual yearbook. Students can post their current story on as many landing pages as desired. If the members of the clubs and teams update their stories after graduation, their peers are kept current on their classmate's activities. Students can post their stories on any Americans All Legacy Partner page for additional exposure.
- Teachers in younger grades can set up a summary page for their class and include the year's achievements and add a photograph of the class, without individual names to protect their privacy since they are minors.
- Our program also allows students to demonstrate that they understand and appreciate the value of community service and volunteerism. By helping others less skilled in the art of writing and using today's technology to incorporate images and recordings into their legacy stories, students can earn service-learning credits. Moreover, storytelling can also be a wonderful intergenerational bonding experience, building compassion, empathy, and understanding.
- Though Americans All is no longer active in curriculum areas, our resources remain online to provide background for many of our Heritage Honor Roll stories. We will continue to host resources (now called issues/topics) that are academically well-researched and written, especially those that feature individuals or groups that make up local histories. A student can use their second Heritage Honor Roll story in English or set up an additional, free email membership account (<https://www.guru99.com/best-free-email-service-providers.html>) and select a "Group" story instead of an "Individual" story. Students will find it easy to start creating their stories. Our story template only requires individuals to fill in a name, date of birth, and a summary that does not exceed 60 words. Additional story text, hyperlinks, photographs, and audio-visual media can be added later. The story does not require to be completed in one session and can be updated anytime. All previous versions of the story are archived. Moreover, stories can be published in multiple languages. Only the student can edit the story, and half of the story can be privacy-protected with a second password.

As part of their lifetime membership in Americans All, we offer our members a free, one-year subscription to our optional [Social Legacy Network](#) to receive additional benefits. Students keep their free trial until their class graduates. After the trial period expires, the cost is \$4 per month to continue receiving these benefits, which includes discounts on goods and services offered by our program partners, such as restaurants and other businesses that cater to their needs. We believe the financial benefits a member can receive from our business partners will more than cover their monthly subscription fee.

The benefits for students in two- or four-year post-secondary colleges and universities are basically the same, except they may be able to use the resources we have created—and will continue to add to the site. According to the Conference on College Composition and Communication, writing instruction is critical for success in college and beyond. Getting national exposure for their work is a valuable plus.

Homeschools

Homeschooling has been on the rise in recent years and from all indications, this trend will continue in 2023. 11.1 percent of U.S. K-12 students are now being independently homeschooled. Homeschooling drastically grew from 2019-2020 to 2020-2021, overshadowing its brisk growth of 8.3% in previous years.

Since the start of the pandemic, homeschooling has been on the rise with an estimated 30% increase in enrollment since the beginning of the 2019 school year. While the total number of homeschooled families remains relatively modest, its rise has impacted traditional school enrollment and the way we view education.

According to the National Home Education Research Institute (NHERI), there were 3.7 million homeschooled students in the USA during the 2020/2021 school year. The institute's data also shows that from late March to early May of 2022, 5.22% of all school-age children were homeschooled.

According to the data from the National Home Education Research Institute (NHERI), three states are in contention for the highest number of homeschoolers. These states are North Carolina, Florida, and Georgia (in that order).

As of 2021, North Carolina had 179,900 homeschooled students. Florida came a close second with about 143,431 homeschooled students. Georgia (in third place) had 85,510 students. In percentages, North Carolina has a homeschooling rate of 10.6%, while the state of Virginia has 4.8%. Florida and Georgia follow closely with 4.6%.

Most parents and youth decide to homeschool for more than one reason and the most common reasons are to:

- customize or individualize the curriculum and learning environment for each child;
- accomplish more academically than is accomplished in institutional schools;
- use pedagogical approaches other than those typical in institutional schools;
- enhance family relationships between children and parents and among siblings;
- provide guided and reasoned social interactions with youthful peers and adults;
- provide a safer environment for children and youth, because of physical violence, drugs and alcohol, psychological abuse, racism, and improper and unhealthy sexuality associated with institutional schools and
- teach and impart a particular set of values, beliefs and world view to their children.²

Homeschool families do not get public (i.e., tax-funded) resources to support their efforts and pay approximately \$600 per student out of their own funds. Our Homeschool Resource Center, to which these families gain access when they join the Social Legacy Network, will provide them with instructional resources that meet their specific needs and the resources public school students use to help prepare for state testing and college admission.

Target Markets for the Storytelling Component

The target markets for legacy preservation through storytelling are broad, and most of these markets' membership expands yearly. Therefore, there will never be a shortage of people with stories to record and share or who desire to obtain discounts.

Nationally, there are 20,500 public and private high schools with 10,800,000 annual students, 3,143 counties and county equivalents, and 30,000,000 small businesses. Howard County, the initial pilot site, has 14 public and 12 non-public schools, 26 homeschools, 14,600 high school students, and 9,000 small businesses.

- **Active Seniors:** More than 46.2 million people in the United States are above age 65, and that number is expected to grow to 98.2 million by 2060. Of individuals 65 years of age and older, 71 percent report that they use computers, and 62.4 percent report that they have high-speed Internet connectivity. (www.census.gov)
- **Ethnic and Cultural Groups:** With today's increasing demographic diversity, our nation is becoming severely polarized in many sectors. Literature and research studies show that the significant barrier preventing people from accepting one another is that people are identified by their generic group affiliation rather than as individuals with names, faces and, common characteristics. An easily accessible website like Americans All contains stories about all the races, nationalities, and ethnicities that comprise our nation's population can significantly reduce this barrier. Their stories are America's stories.
- **Franchise companies:** In 2022, it is estimated that there will be some 792,000 franchise establishments in the United States. The largest segment of the franchising industry is quick-service restaurants, followed by business services. The top five are franchises in full-service restaurants, real estate, and commercial and residential services. Franchising today is bigger than ever. Some of the most popular products and places are part of global franchises. You can pick almost any random product in a convenience store, and there's a good chance a franchise produced it.
- **Military Personnel:** The story of America is about the countless men and women who give up their comfort, the company of their loved ones, and sometimes their lives in service to our nation. From the Revolutionary War to Afghanistan, in times of both war and peace, military personnel endure hardship so Americans can enjoy peace and freedom. Yet, Because these men and women often serve anonymously, their stories of sacrifice and dedication to duty can be lost to posterity. Some of their legacy stories can be added to our school database to help inform students about how military personnel have contributed to preserving the nation's democratic way of life.
- **Domestic First Responders:** These individuals—firefighters, police officers, paramedics, and emergency medical technicians—dedicate themselves to aiding and protecting citizens in emergencies. They put others' safety and well-being above their own, often at great risk to themselves. The tragic events of 9-11 and the COVID-19 pandemic offer dramatic proof of the heroism and self-sacrifice of America's first responders. Current and future generations gain insights and inspiration by creating and sharing a permanent record of their service.

- **PTA/PTO Organizations:** PTA/PTO organizations support schools in getting both unrestricted funds and classroom resources. We can fill a dual role for these groups by providing them with a program to add as a fundraising tool (Heritage Honor Roll) and giving schools electronic access to much-needed resources for students participating in non-curriculum school activities.
- **Private Schools:** The need to complete a community service project is becoming a mandated graduation requirement. Schools are encouraging students to include service as part of their school experience. Students can help others create legacy stories and simultaneously meet their service obligations.
- **Legacy Partners:** Legacy Partners—families, groups, and local, regional and/or national businesses or organizations whose social philosophy reinforce our mission—gain an opportunity to use this program in many ways. They are covered in other sections.
- **Universities and Teacher Colleges:** Students at schools that have a teacher training department can benefit from access to our resources. We are also a valuable resource for students to use in creative writing and language arts programs in their clubs.
- **Party and Event and Planners.** There are 127,037 people employed in the Party & Event Planners industry in the US as of 2023. It is a \$5.6 billion industry and includes individual, groups, and corporate clients, and our storytelling tools with the graphics component should prove extremely valuable to their clients.
- **Highrise Apartment Buildings.** These buildings are self-contained universes whose management frequently engages adopts programs that can benefit their tenants. Storytelling can be an ideal way for residents to learn more about their neighbors and set up groups that have common interests. Moreover, many residents own businesses that can always use more exposure as well as the desire to support their local communities.

Dear Sir or Madam:

We're responding to your request dated February 16, 2021, about your tax-exempt status.

We issued you a determination letter in March 1997, recognizing you as tax-exempt under Internal Revenue Code (IRC) Section 501(c)(3).

We also show you're not a private foundation as defined under IRC Section 509(a) because you're described in IRC Section 509(a)(1) and 170(b)(1)(A)(vi).

Donors can deduct contributions they make to you as provided in IRC Section 170. You're also qualified to receive tax-deductible bequests, legacies, devises, transfers, or gifts under IRC Sections 2055, 2106, and 2522.

In the heading, we indicated whether you must file an annual information return. If you're required to file a return, you must file one of the following by the 15th day of the 5th month after the end of your annual accounting period.

- Form 990, Return of Organization Exempt From Income Tax
- Form 990-EZ, Short Form Return c
- Form 990-N, Electronic Notice (e-l Form 990EZ
