For all kinds of environmental recycling machinery (crushers, sorters, wood, mixed waste, soil-based) please visit the "Construction Machinery Hall"

Mobile and shredder & Crushing & Screening
SpecialistWe

introduce various machines by making full use of our domestic and international networks.

We can provide not only new and used machines, but also after-sales service with our staff with specialized knowledge.

(We will propose maintenance plans and monthly inspections and repairs according to your usage.) We will do our best to plan according to your wishes, from viewing used machines, actual crushing tests for new machines, introducing finance, licensing, after-sales service, and parts

supply.

Our specialty is mobile, self-propelled, and mobile machines, but we can also introduce stationary, fixed, and skid machines upon request. We provide the best model for your budget and operating volume, whether it be new or used, and our motto is to meet your requests as much as possible.

Used machines in particular are "one of a kind." We will propose machines that meet your needs from various perspectives.

We also have many commissioned models that are not listed on our website.

Please contact us first!! We also have many commissioned models that are not listed on our website. Please contact us first!! We also have many commissioned models that are not listed on our website . Please contact us first!! Please contact us first!!

Four Features of the Construction Machinery Museum

1. We have extensive knowledge of domestic and foreign machinery through many years of dealing with environmental machinery.
2. From introducing new overseas vehicles to introducing used vehicles using our domestic network
3. Introducing service personnel with specialized knowledge
4. Procurement of parts from overseas manufacturers is also quick and low-cost

We handle the sale, rental, lease and purchase of new and used environmental recycling machinery!

Please feel free to contact us even if you are looking for used environmental recycling machinery that is not listed.
