### Cases

#### Customer testimonials

##### Male, 40s

After using the essence for a month, my hair became thicker, more resilient, and more voluminous. I could feel the effects after about two weeks. It had little odor or stickiness, so it was very easy to use.

##### Male, 30s

This was my first time using a hair growth product. I started to notice a change in my hair about a month after I started using it. I would like to continue using it.

##### Male, 40s

I have never used any hair growth products before, and this is my first time using this essence. I noticed an improvement in my hair quality within a month. I would definitely like to use it again.

##### Man in his 50s

After about 14 days of use, the quality of my hair started to change. It started to get thicker, and I felt like it had more shine and bounce. It also felt like it had grown more, so it wasn't long before I noticed the results.

## **Male, 40s**

2/4

I noticed a difference after about 3 days of use. The volume and thickness of my hair changed, and after about a month I felt like my hair was growing. Both the shampoo and essence are easy to use, so I'll continue using them for a while.

## **Man in his 60s**

I had given up on it because of my age, but after using it for about a month, my hair has become shinier. In particular, my hair has become thicker, so it seems to have had a hair-thickening effect. I'm looking forward to continuing to use it.
