**Customer testimonials**

Woman in her 40s

My skin feels so revitalized, like newborn baby skin, it's incomparable to any skincare products I've used before. I think it's so amazing I want to put it in bold to express how great it is.

**Woman in her 50s**

The moisturizing and supple feeling continues not only after use. I couldn't use it every day because of my atopic dermatitis, but I can really feel the difference between the days I use it and the days I don't.

**Woman in her 40s**

I really noticed an improvement in my dry skin and skin elasticity. I plan to continue using this product.

## **Woman in her 50s**

I could clearly see it being absorbed into my skin, it felt smooth and made my skin feel a little plumper, so I'd like to try using it throughout the year.

## **Woman in her 50s**

I used serum water. I stopped using lotion. I'll just use this one. The moisturizing effect is amazing, and even though it saves time, it's no different from when I used to do a lot of skincare, and even more than that, it gives my skin firmness and is fun to use.

3/6

## **Woman in her 20s**

I only used the serum water. The acne and rough skin that I was worried about calmed down. I wanted to cure my rough skin the most, so I felt the effect of that the most.

## **Woman in her 60s**

I used the eye cream. The puffy dark circles under my eyes (spots?) have become lighter. I want to keep this product because it's a reliable cosmetic. I'd like to recommend it to my friends.

## **Woman in her 40s**

I used the serum water. It spreads easily and is very moisturizing, so I didn't need to use lotion. It works well with serums from other manufacturers, and despite its moisturizing power, it doesn't leave my skin sticky or supple after use, so I think it's a gender-neutral product.
